narrow If we stood within the gate I would
lonely Ever stand without the gate Never

whisper darling boy its growing late, Please
whisper darling boy its growing late, Please

say good night don't coax me love to wait,
say good night and coax me love to wait,

CHORUS.

Good night, Good night my own love,

Good night my own love.
Good night, my dearest dear,

Kiss and say Good night once more and then repeat it,

o'er and o'er If you my love were only here,

Good night keep saying Good night,

Good night my own love.
Until the morning light
when the sunbeam starts to peep and wake the flowers
from their sleep twould find one kissing you good

1. Night.
2. Night.

Good-night my own love.
