Top Health Research Databases

- **PubMed: Open Access!** The primary database of information in the medical and health sciences fields. Open access searching interface for 'Medline.' Includes references from all areas of health, allied health, medicine, nursing, nutrition, and biomedical sciences.

- **CINAHL:** Cumulative Index to Nursing and Allied Health Literature. Leading research from publications in the fields of nursing and allied health from 1982 to the present.

- **Cochrane Library:** Provides access to reliable information compiled by the Cochrane Collaboration, an international network of individuals and institutions committed to preparing, maintaining, and disseminating systematic, up-to-date reviews of the effects of health care.

ASU Libraries Memberships
- BioMed Central
  - ASU Libraries have a Prepay Membership,
- Chemistry Central
  - ASU Libraries have a Prepay Membership,
- Hindawi Publishing Corporation
  - ASU Libraries have an institutional member
- Nucleic Acids Research
  - ASU Libraries have an institutional member
- PeerJ
  - PeerJ is an open access journal publishing
    ASU authors with a basic lifetime members
- SpringerOpen
  - ASU Libraries have a Prepay Membership,
  - Springer Open Choice journals.

Urichsweb has bibliographic and contact information on over 300,000 periodicals, books, newspapers, and databases.

Cabell's Directory of Publishing Opportunities identifies publishing opportunities in Business, Management, Marketing, Educational Curriculum and Methods, Education, and the Physical Sciences. It is a database of publishers and journals.

The Directory of Open Access Journals (DOAJ) covers free, full-text scholarly journals. Not all journals do have article processing fees. However, many do. The ASU Libraries have a Prepay Membership for which they will reduce or cover article processing charges for ASU authors.

Note: as with any publishing opportunity, be wary of predatory publishers and predatory open access publishers. These are usually low-quality journals.

The Right to Research Coalition has a pamphlet: "Optimize Your Publication" which is applicable to anyone looking to publish.

For detailed information about journal impact and ranking, explore the Clarivate Analytics JCR. This provides an overview of journals in a particular field.

Eigentorfactor is another way to evaluate journals based on their impact and effectiveness. This feature allows us to compare the value per dollar that they provide. This feature allows us to compare the value per dollar that they provide.
