INTRODUCTORY SECTION
December 10, 2002

To the Honorable Mayor, Members of the Governing Council, and Citizens of the Town of Fountain Hills, Arizona:

The Comprehensive Annual Financial Report (CAFR) of the Town of Fountain Hills for the fiscal year ended June 30, 2002, is hereby submitted. Local ordinances and state statutes require that the Town issue an annual report on its financial position and activity and that this report be audited by an independent firm of certified public accountants. This document represents a joint effort by Town staff as well as our auditors, Cronstrom & Trbovich. It will be submitted to the Government Finance Officers Association of the United States and Canada in an effort to secure a “Certificate of Achievement for Excellence in Financial Reporting”. Copies of this report will be sent to elected officials, bond rating agencies, national repositories, and other agencies which have expressed an interest in Fountain Hills’ financial matters.

Responsibility for the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with management. Staff believes that the data is accurate in all material respects and is reported in a manner that presents fairly the financial position and operational results of the Town of Fountain Hills’ various funds and account groups. All disclosures necessary for the reader to understand the Town’s activities have been included.

The Comprehensive Annual Financial Report is presented in three sections: Introductory, Financial and Statistical. The Introductory Section includes the letter of transmittal, an organizational chart and a list of the Town of Fountain Hills’ elected officials and department heads. The Financial Section includes the general-purpose financial statements, the combining and individual fund and account group financial statements and schedules, as well as the independent auditor’s report on these financial statements and schedules. The Statistical Section includes selected financial and demographic information, generally presented on a ten-year basis.

The financial reporting entity (the Town) includes all the funds and account groups of the primary government (i.e., the Town of Fountain Hills as legally defined) as well as all of its component units. The component units consist of legally separate entities for which the primary government is financially accountable. The Town provides or administers a full range of services including public safety (police, animal control, building inspection); community development (code enforcement, planning, zoning and engineering); the construction and maintenance of streets and infrastructure, municipal court, recreational activities and cultural events. The Town does not maintain utility or other operations that require the establishment of enterprise funds. On October 31, 2001 the Town Council adopted an ordinance to provide fire protection services to all Fountain Hills residents, forming a municipal fire department. Fire protection was previously provided by a separate legal entity, the Fountain Hills Fire District, which has been merged with the Town of Fountain Hills.
Blended component units, although legally separate entities, are, in substance, part of the primary government’s operations and are included as part of the primary government. Accordingly, the Cottonwoods Maintenance District, Eagle Mountain Community Facilities District and Fountain Hills Municipal Property Corporation are included in the financial reports of the Town.

The Town does not have a primary property tax for operating purposes. The voters of Fountain Hills were asked in May 2002 to approve a primary property tax in order to fund the new fire department, however, the measure failed. Operations continue to be paid for from sales tax, user fees and charges, licenses and permits and other similar sources, however, a new revenue source will need to be identified. The secondary property tax of $0.51 per $100 of assessed secondary valuation is used solely for the retirement of debt.

GOVERNMENTAL STRUCTURE, LOCAL ECONOMIC CONDITION AND OUTLOOK

General Information

The Town of Fountain Hills is a planned, family-oriented community established in 1970 by McCulloch Properties (now MCO Properties, Inc.). Prior to 1970 the area was a cattle ranch and was part of one of the largest land and cattle holdings in Arizona. It was purchased by Robert McCulloch in the late 1960s and designed by Charles Wood, Jr. (designer of Disneyland in southern California). The centerpiece of Fountain Hills is one of the world's tallest man-made fountains, a focal point that attracts thousands of visitors each year. Located on 11,340 acres of land, and bordering northeast Scottsdale, Fountain Hills is surrounded by the 3,500-foot McDowell Mountains on the west, the Fort McDowell Indian Reservation on the east, the Salt River Indian Reservation on the south and by the McDowell Mountain Regional Park on the north. Elevation is 1,520 feet at the fountain, 3,000 feet on Golden Eagle Boulevard, and is 500 feet above Phoenix.

The U.S. Bureau of the Census Year 2000 revealed a year round population of 20,235. This represents a 43% increase in population from 1995 (14,146) and a 98% increase from the 1990 census (10,190).

Governmental Structure

The Town of Fountain Hills is an Arizona Municipal Corporation, acting as a general law Town as prescribed in the Arizona Revised statutes. The Town was incorporated on December 5, 1989 with the governmental and administrative affairs of the Town operating under the Council-Manager form of government. Policy making and legislative authority are vested in the Town Council, which consists of a Mayor and six Councilmembers. Councilmembers are elected at large for staggered four-year terms. The Mayor, who also sits on the Town Council, is directly elected bi-annually by the voters and the Vice-Mayor is selected by the Council every eight months on a rotating basis. The Town Council is responsible, among other things, for the adoption of local ordinances, budget adoption, the development of citizen advisory committees and hiring the Town Manager. The Town Manager is responsible for implementation of the policies of the Town Council and administering the Town’s operations through eight department directors and approximately 112 employees. The Magistrate, Town Attorney and Town Prosecutor are under the direction of the Town Council.
Economic Condition and Outlook

The economic climate of the Town of Fountain Hills is reflective of the national economy with a slowdown in the local economy, especially relating to sales tax. Construction activity declined 11% from fiscal year 2000-2001 and the Town does not expect any significant recovery in the current fiscal year. The Town government is analyzing Fountain Hills reliance on state shared revenues and local sales tax for operations; therefore, alternative revenue sources are being explored for further consideration.

During the second quarter of fiscal year 2002-2003 Fountain Hills expects to see the opening of two large retail shopping centers, one with a large retail anchor and the other with a large grocery anchor. These two shopping centers will add significant sales tax dollars to the Town’s general fund both in terms of construction and retail activity. The declining home construction activity is partially offset by new development of luxury homes in two new subdivisions near the McDowell Mountains.

Residential

Home construction in the Eagle Mountain community within Fountain Hills is nearing completion. When completed the Eagle Mountain community will consist of approximately 600 single-family homes and 80 condominiums. Eagle Mountain Village Market Place opened in May 2002 at the southeast corner of Shea Boulevard and Eagle Mountain Parkway and is anchored by a Fry’s grocery store.

The Firerock Country Club development begun lot sales and home construction that will include up to 390 single-family homes and 288 condominiums in a gated community. The development has a private country club that includes an 18-hole golf course.

A major developer in Fountain Hills, MCO Properties, gained final subdivision approval for two large subdivisions in the northwest corner of Fountain Hills. The Eagle Ridge North (Adero Canyon) and Eagle’s Nest subdivisions were approved for a total of 415 custom lots. These subdivisions are adjacent to 354 acres of mountainous terrain that has been acquired from the developer. The Fountain Hills McDowell Mountain Preserve will have access to the McDowell Mountain Regional Park and will be used for development of a trailhead. Improvement plans are currently under review for Adero Canyon. Construction of the “backbone” roadway is projected to begin in February 2003.

As of December 12, 2002 there were a total of 11,016 dwelling units in Fountain Hills. There are 7,435 developed single-family dwelling units, of which 598 are constructed in multi-family zones within the Town and 3,587 multi-family dwelling units. As of today within the entire Town there are 1,962 undeveloped single-family zoned platted lots. The population of Fountain Hills is estimated at 25,000 as of December 2002.

Commercial

A portion of the Town’s downtown commercial core has recently been subdivided as the first step in developing the Town Center area. The Takala Cinemas and Marketplace has been planned for the Town Center, south of the Community Center, that will host a multiplex cinema, as well as retail and office space. A Hilton Hotel, an Amethyst Inn, and a Holiday Inn are in various stages of the planning process and, as of this time, are moving forward. At the southeast entrance to the community, Four Peaks Plaza opened with Target, Pier I, Famous Footwear, Kentucky Fried Chicken, and Sleep America stores with additional retail tenants in the improvement process. The Plaza Fountainside is beginning Phase II of the retail center, with a possibility of adding a residential element to the project.
Industrial

Fountain Hills has a business park that is partially developed. The Business Park contains individual construction equipment storage and maintenance yards, construction company operation yards, a utility company storage and maintenance yard, a distribution business and several small manufacturing operations.

MAJOR INITIATIVES AND ACCOMPLISHMENTS

The following are some of the other accomplishments during 2001-2002:

Fountain Hills has good reason to celebrate fiscal year 2001-2002 – the new Town Community Center and Library/Museum complex, located on a 13 acre site in the downtown area, opened on September 29, 2001. The 31,000 square foot Community Center, consisting of two arts and crafts classrooms, two seminar rooms, two classrooms, a kinder-care room, a conference room, a game room, lounge and lobby areas, an 8,000 square foot banquet room subdivisible into four activity/event rooms, a catering kitchen, office and support facilities, were financed through Municipal Property Corporation bonds that will be retired using local sales tax revenue streams. The 21,000 square foot Library/Museum, consisting of separate adult and children reading areas and book stacks, meeting rooms, computer resource center and 5,000 square feet of exhibit space for the museum, will be paid for by the voter-approved general obligation bonds.

Fountain Hills Community Center

On October 31, 2001 the Mayor and Town Council of Fountain Hills adopted an Ordinance to provide fire protection services to all residents. Fire protection and emergency medical services had previously been provided by the Fountain Hills Volunteer Fire District since 1972 through incorporation. With the merger all of the assets and liabilities of the former District were turned over to the Town and are hereby incorporated with this report.
The senior population of Fountain Hills benefited from the coordination of joint efforts by the Red Cross, Maricopa County Human Services, RPTA (Regional Public Transportation Association), and the Fountain Hills Senior Services to provide transportation service to and from the Senior Center, Mayo Clinic and neighboring cities.

In order to offset the costs associated with a rapidly growing population base the Community Development department successfully developed and instituted a Development Fee for new development within the Town during fiscal year 2000-2001. The fees are allocated among Parks and Recreation, Streets and Highways, Public Safety (Marshal Department), Open Space and General Government and will be used to fund additional parks, open space, etc., as the community grows.

The Fountain Hills Marshal Department has successfully obtained funding for three officers through federal Justice Department grants and also provided two resource officers to the local high school as additional security. The Department also sponsors a wide variety of youth service activities including Special Olympics, “Stranger Danger” presentations, Bicycle Safety Rodeos and a Fountain Hills Law Enforcement Explorer Post program.

Fountain Hills has four community parks for its citizens. The Town’s namesake and landmark, Fountain Park, is a 59-acre passive recreation area, which includes: 30-acres of turf, a 29-acre lake with a “world famous fountain” that sends a jet stream 560 feet into the air. The park also includes a pump station, a dam, an 18-hole championship disc golf course, and a children’s playground.

FINANCIAL INFORMATION

Town Management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the government are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

In addition, the Town of Fountain Hills maintains extensive budgetary controls. The objective of these controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the government’s council. Activities of the general fund, special revenue funds, debt service funds and capital projects funds are included in the annual budget. The level of budgetary control (i.e., the level at which expenditures cannot legally exceed the appropriated amount) is the departmental level for the General Fund and in total by fund for the other funds.

In May 2001 the Town’s outstanding General Obligation debt was upgraded from A2 to Aa3. The upgrade was based on "substantial tax base and economic growth, driven by the Towns’ location within the Phoenix metropolitan area, conservative financial management strategies, resulting in substantial reserves, and a manageable debt profile".
General Government Functions  The following schedule presents a summary of General Fund, Special Revenue Funds, Debt Service Funds and Capital Projects Funds revenues for the fiscal year ended June 30, 2002 and the amount and percentage of increases and decreases in relation to prior year revenues.

</tbody>
</table>

All fund revenues total $18,798,477 for fiscal year 2001-2002, which represents an increase of $5,518,228 or 41.55% from 2000-2001. The $1,507,701 increase in Taxes is primarily due to property tax receipts received by the Town from the former Fountain Hills Volunteer Fire District ($1,355,318). When the Town assumed fire operations on November 1, 2001 the property tax that had been levied by the Fire District was directed to the Town for emergency and medical services.

Fountain Hills’ largest, locally generated revenue source is the local sales tax with a rate of 1.6% (estimated at $4,300,000 for fiscal year 2002-2003). Historically, the two largest components of the local sales tax revenues has been comprised of construction and retail activity (66% of the total). The Construction sales tax revenue decreased over the prior year by 30.8% reflecting a slowdown in the economy and construction activity. Sales tax from the retail trade sector increased by a three year low of 5.1%.

Major items included in Intergovernmental (state-shared) revenue include state sales tax, highway user revenue, state income tax, vehicle license tax and grants. The state income tax distribution to the Town increased by $422,532 from the prior fiscal year. The Town does not expect this rate of increase to repeat itself in the next fiscal year. The Town continues to participate in the federal COPS Universal Hiring program for community policing.
Growth in the area of new home construction in the Town of Fountain Hills has slowed significantly. This is reflected in the $826,405 decrease of Licenses and Permit revenue collected, a 37.95% decrease from the prior year. During calendar year 2000 there were 326 single family residence permits issued; during 2001 there were 227 permits issued; through June 2002 there were 78 permits issued. Two major commercial retail construction projects are completed which helped to soften the economic impact of the slowdown in construction activity.

Revenue received under the Charges for Services category includes Developer Contributions, In Lieu Payments and Parks & Recreation User Fees. In February 2001 the Town enacted development fees that are collected with all new building permits for both residential and commercial development. In fiscal year 2001-2002 the Town collected $791,000 in development fees that are restricted for appropriation for the particular purpose for which they were imposed.

The Town continues to maintain a reserve fund, primarily invested with the Arizona State Local Government Investment Pool. The prior fiscal year recognized a reduction in interest earnings for an investment loss that is expected to be recovered in fiscal year 2002-2003. The investment funds were proceeds from bonds issued by the Municipal Property Corporation for construction of the new Community Center and held by a trustee. Despite the loss the project was completed as scheduled with expenditures being paid by the General Fund.

The Other category of revenue is used for miscellaneous and not-otherwise-categorized sources of revenue. There were two significant non-categorized transactions that are included in fiscal year 2001-2002 – the first was the residual cash transferred from the former Fountain Hills Volunteer Fire District ($1,502,287) to the Town; the second was a reimbursement from the Arizona State Heritage Grant ($237,300).

The following schedule presents a summary of General Fund, Special Revenue Funds, Debt Service Funds and Capital Projects Funds expenditures for the fiscal year ended June 30, 2002 and the increases and decreases in relation to prior year amounts.

</tr>
</tbody>
</table>

Expenditures for all operations totaled $32,630,186, which was $11,262,136 greater than the prior year. Public safety increased by $1,730,495 due to the establishment of a new Fire Department for emergency and medical services on November 1, 2001 ($1,819,200). The Fire Department has a contract with Rural Metro Corporation to provide the emergency services. Public Safety also includes Building Safety and the Town Marshal Department. The Marshal Department is responsible for all local law enforcement activities and oversees the annual contract with Maricopa County Sheriff’s Office for outside police services ($93,750 increase over prior year). The Town also receives federal funding through the U.S. Department of Justice, Office of Community Oriented Policing Services, which stipulates hiring and retaining new police officers. The federal funding of the officers is for a three year period and requires a decreased federal subsidy and increased Town contribution each year.

The other significant increase is in the Capital Outlay category, which reflects the expenditure for the new Library/Museum construction project ($1,447,033) and the purchase of 354 acres of mountain preserve for open space ($13,460,000). The mountains were purchased with $7,460,000 in Municipal Property Corporation Bonds and voter approved $6,000,000 General Obligation bonds. The purchase of this land provides residents with access to the McDowell Mountain State Park. The increase in Debt Service payments and bond issuance costs is related to the land purchase.

The General Government function consists of the Administration, Magistrate Court and Town Council Departments. The Administration Department is responsible for all overhead operations of the Town including rent, insurance, utilities, etc.

Culture and Recreation includes the new Community Center/Library/Museum, four parks (121 acres), 25 acres of landscaped medians, and 1,450 acres of open space. The costs for the parks and medians are mainly for building maintenance costs, electricity, water and mowing/landscape maintenance fees.

Community Development expenditures, which includes the Engineering Department, decreased by $110,736 due to decreased requirements for outside engineering fees.
General Government Fund Balances

Fund balances reflect the accumulated excess of revenues and other financing sources over expenditures and other financing uses for general government functions. Unexpended appropriations lapse at the close of the fiscal year and revert to unreserved fund balance. The following schedule presents increases (decreases) in total fund balances by June 30, 2002 compared to the prior year.

**General Fund Balance** The fund balance of the general Fund increased by $102,309 from June 30, 2001 to $4,812,370 (34% of Revenues or 136.3 days expenditures). However, without the transfer from the Fountain Hills Volunteer Fire District ($1,050,969) the fund balance would have decreased by $948,660 to $3,761,401 (27% of Revenues or 106.5 days expenditures). Additionally, the General Fund Balance of $4,812,370 includes $1,400,000 of sales tax that the Town Council has restricted for Downtown Development and Land Preservation. Without the restricted Downtown Development and Land Preservation Sales tax and the one-time transfer, the General Fund Balance would have decreased by $2,348,660 to $2,463,710 (17% of Revenues or 69.8 days expenditures). In subsequent years a separate fund will be created to account for the restricted sales tax funds.

**Debt Administration** On June 30, 2002, the Town had one Street and Highway User Revenue Bond, two Municipal Property Corporation Revenue Bonds and three general obligation bonds issues outstanding. The outstanding principal totals $810,000 for the Street and Highway User Revenue Bond, $12,600,000 for the general obligation bonds which includes the new bonds issued for Open Space and $11,855,000 of Municipal Property Corporation bonds. The Town also has two Community Facilities District Bonds outstanding totaling $4,905,000 and an Improvement District Bond outstanding for $22,592.

**Cash Management Policies and Practices** The Town uses a system of consolidated cash management. Cash from all funds is pooled in a central disbursement fund. Cash to be used for payment of current expenditures is maintained in a checking account, the balance of cash is maintained on deposit with the Arizona State Treasurer’s Local Government Investment Pool. Cash in the Local Government Investment Pool is available upon 24 hours notice. The LGIP invests in U.S. Treasury Notes, U.S. Treasury Bills and federally guaranteed insurance contracts. The average interest rate for fiscal year 2000-01 was 6.0617% and 2.8021% for fiscal year 2001-2002. Investments held at LGIP earned interest revenue of $178,691 for the year ended June 30, 2002.

**Risk Management** The Town of Fountain Hills participates in the Arizona Municipal Risk Retention Pool. Risk coverage includes general liability, errors and omissions, property and automobile insurance. The policy insures up to $2,000,000 per incident occurrence plus any excess liability of up to $13,000,000 per occurrence per year. Coverage is provided on a claims-made basis.

During fiscal year 2001-2002 the Town was served with three lawsuits regarding the Town Council action to assume fire and emergency medical services to the community. The lawsuits were filed on behalf of former Fire District firefighters who were not offered positions with the Town as well as one citizen who filed on behalf of the citizens right to decide fire services. The citizen lawsuit and one firefighter lawsuit have subsequently been settled for immaterial amounts; the final lawsuit on behalf of the firefighters represents a claim for $10 million for breach of contract and interference with contractual relations. The suit is presently scheduled to go to court in February, 2003. The Town expects to prevail in this lawsuit but would be covered by the insurance provider if the claim is determined to be valid.

The Arizona Municipal Workers Compensation Fund is the Town’s insurance provider for Workers’ Compensation. The rate varies according to the functions performed by personnel.
Other Information

Independent Audit  Arizona statutes require an annual audit by independent certified public accountants. The firm of Cronstrom and Trbovich P.C., CPAs was retained by the Town to perform the 2002 audit. Generally accepted auditing standards were used by the auditors in conducting the engagement. The auditor's report on the general-purpose financial statements and combining and individual fund statements and schedules is included in the Financial Section of this report.

Awards and Acknowledgements  The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of Fountain Hills for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2001. This was the sixth consecutive year that the government has received this prestigious award. In order to be awarded a Certificate of Achievement, the government published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

I would also like to extend my appreciation to the Mayor and Council for their leadership and support. The preparation of this Comprehensive Annual Financial Report was made possible by the hard work of the Finance Department staff. Each member of the department has my sincere appreciation for the contributions made in the preparation of this report.

Respectfully submitted,

FINANCIAL SECTION
INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and the Town Council of the
Town of Fountain Hills, Arizona

We have audited the accompanying general-purpose financial statements of the Town of
Fountain Hills, Arizona (Town), as of and for the year ended June 30, 2002, as listed in the table
of contents. These general-purpose financial statements are the responsibility of the Town's
management. Our responsibility is to express an opinion on these general-purpose financial
statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those
standards require that we plan and perform the audit to obtain reasonable assurance about
whether the general-purpose financial statements are free of material misstatement. An audit
includes examining, on a test basis, evidence supporting the amounts and disclosures in the
general-purpose financial statements. An audit also includes assessing the accounting principles
used and significant estimates made by management, as well as evaluating the overall general-
purpose financial statement presentation. We believe that our audit provides a reasonable basis
for our opinion.

In our opinion, the general-purpose financial statements referred to above present fairly, in all
material respects, the financial position of the Town of Fountain Hills, Arizona as of
June 30, 2002, and the results of its operations for the year then ended in conformity with U.S.
generally accepted accounting principles.

Our audit was made for the purpose of forming an opinion on the general-purpose financial
statements taken as a whole. The combining, individual fund and account group financial
statements and schedules listed in the table of contents as supplementary information are
presented for purposes of additional analysis and are not a required part of the general-purpose
financial statements. Such information has been subjected to the auditing procedures applied in
the audit of the general-purpose financial statements and, in our opinion, is fairly stated in all
material respects in relation to the general-purpose financial statements taken as a whole.
The other information included in this report, designated as the "Statistical Section" in the table of contents, was not audited by us and, accordingly, we express no opinion on it.

Cronstrom & Trbovich, P.C.

THIS PAGE BLANK
NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The general-purpose financial statements of the Town of Fountain Hills, Arizona (Town) conform to U.S. generally accepted accounting principles as applicable to governmental units. The Town was incorporated on December 5, 1989 and operates under the Town Council form of government. The more significant of the Town's accounting policies are described below.

Reporting Entity - In evaluating how to define the Town, for financial reporting purposes, management has identified two potential component units. The decision to include a potential component unit in the reporting entity has been made by applying criteria set forth in U.S. generally accepted accounting principles. Generally, component units are legally separate organizations for which the elected officials of the primary government (i.e., the Town) are financially accountable. The primary government is financially accountable for a potential component unit if it: appoints a voting majority of the potential component unit's governing body; and, either is able to impose its will on the potential component unit or there is a possibility of the potential component unit to provide specific financial benefits to, or impose specific financial burdens on the primary government. In addition, a primary government may be financially accountable for a potential component unit even though the potential component unit may have a separately elected governing board, a board appointed by another government, or a jointly appointed board if the potential component unit is fiscally dependent on the primary government (e.g., the primary government must approve the potential component unit's budget, tax rates, etc.). The following component units have been included in the Town's reporting entity:

The Eagle Mountain Community Facilities District and the Cottonwoods Improvement District. As special purpose districts and separate political subdivisions under the Arizona Constitution, the Districts can levy taxes and issue bonds independently of the Town. Property owners in the designated areas are assessed for District taxes and thus for the costs of operating the Districts. The Town Council serves as the Board of Directors; however, the Town has no liability for the Districts' debt. For financial reporting purposes, transactions of the Districts are combined together and included as if they were part of the Town's operations.

Town of Fountain Hills, Arizona Municipal Property Corporation. The Town of Fountain Hills, Arizona Municipal Property Corporation's (MPC) board of directors consists of three members which are appointed by the Fountain Hills Town Council. The MPC, which is a nonprofit corporation incorporated under the laws of the State of Arizona, was formed for the sole purpose of assisting the Town in obtaining financing for various projects of the Town. The Town has a "moral obligation" for the repayment of the MPC's bonds.
NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Fund Accounting - The accounts of the Town are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped, in the general-purpose financial statements in this report, into generic fund types and broad categories as follows:

Governmental Funds

General Fund - The General Fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or major capital projects) that are legally restricted to expenditures for specified purposes.

Debt Service Funds - The Debt Service Funds account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

Capital Projects Funds - The Capital Projects Funds are used to account for specific revenue sources that are legally restricted to expenditures for the acquisition or construction of general fixed assets.

Account Groups

General Fixed Assets - The General Fixed Assets Account Group accounts for the fixed assets of the Town.

General Long-term Debt - The General Long-term Debt Account Group accounts for the unmatured principal balances of bonds and other long-term debt not reported in proprietary funds.
NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Measurement Focus - The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All Governmental Funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

Basis of Accounting - Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements.

Governmental Funds are accounted for using the modified accrual basis of accounting. Revenues are recognized when they become measurable and available to finance expenditures of the current period. Expenditures are recognized when the related fund liability is incurred. However, since debt service resources are provided during the current year for payment of general long-term debt principal and interest due early in the following year, the expenditures and related liabilities have been recognized in the Debt Service Funds.

Those revenues susceptible to accrual are intergovernmental grants and appropriations, franchise taxes, licenses, interest revenue and charges for services. Sales taxes collected and held by the state at year end on behalf of the government also are recognized as revenue. Fines, permits and parking meter revenues are not susceptible to accrual because generally they are not measurable until received in cash.

Budgetary Accounting - The Town Council follows these procedures in establishing the budgetary data reflected in the general-purpose financial statements:

1. In accordance with Arizona Revised Statutes, the Town Manager submits a proposed budget for the fiscal year commencing the following July 1 to the Town Council. The operating budget includes proposed expenditures and the means of financing them for the upcoming year.

2. Public hearings are conducted to obtain taxpayer comment.

3. State law requires that, prior to April 1, the Economic Estimates commission provides the Town with a final expenditure limit for the coming fiscal year. To ensure compliance with the expenditure limitation, a uniform expenditure report must be filed with the State each year. This report, issued under a separate cover, reconciles total Town expenditures from the audited general-purpose financial statements to total expenditures for reporting in accordance with the State's uniform expenditure reporting system (A.R.S. §41-1279.07).
NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

4. By Arizona Constitution, expenditures may not legally exceed the expenditure limitation described below of all fund types as a whole. For management purposes, the Town adopts a budget by department for the General Fund and in total by fund for other funds. The Town Manager, subject to Town Council approval, may at any time transfer any unencumbered appropriation balance or portion thereof between a department or activity. The adopted budget cannot be amended in any way without Town Council approval.

5. Legal budgets are adopted for the General, Special Revenue, Debt Service and Capital Projects Funds on essentially the same modified accrual basis of accounting used to record actual revenues and expenditures. (See Note 12 for exception.)

The Town is subject to the State of Arizona's Spending Limitation Law for Towns and Cities. This law does not permit the Town to spend more than budgeted revenues plus the carry-over unrestricted cash balance from the prior fiscal year. The limitation is applied to the total of the combined funds. The Town complied with this law during the year.

No supplementary budgetary appropriations were necessary during the year.

Encumbrances - Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded to reserve that portion of the applicable fund balance, is not employed by the Town during the year.

All appropriations lapse at year-end.

Cash Equivalents - Cash equivalents consist of short-term, highly liquid investments that are both (a) readily convertible to known amounts of cash; and (b) so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Generally, only investments with original maturities of three months or less meet this definition.

Investments - Investments in securities are stated at fair value in accordance with GASB Statement No. 31.

Short-term Interfund Receivables/Payables - During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet.
NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

**Inventory of Supplies** - Purchases of such inventory items are recorded at the time of purchase as expenditures in the funds from which the purchases are made; and because the amounts on hand at June 30, 2002 were immaterial, they are not included in the balance sheet.

**Prepaid Items** - Payments made to vendors for services that will benefit periods beyond June 30, 2002, are recorded as prepaid items. Expenditures for prepaid items are recorded using the consumption method.

**Property, Plant and Equipment** - Fixed assets used in governmental fund type operations are accounted for in the General Fixed Assets Account Group. Public domain (infrastructure) assets consisting of certain improvements other than buildings, such as roads and sidewalks are not capitalized, as these assets are immovable and of value only to the government. Property, plant and equipment acquired or constructed for general governmental operations are recorded at the time of purchase as expenditures in the funds from which the expenditures were made.

Property, plant and equipment is recorded at historical cost or estimated historical cost if actual historical cost is not available. Donated fixed assets are valued at their estimated fair market value on the date donated.

Assets in the general fixed assets account group are not depreciated.

**Fund Equity** - The unreserved fund balances for governmental funds represent the amount available for budgeting future operations. The reserved fund balances for governmental funds represent the amount that has been legally identified for specific purposes.

**Compensated Absences** - Because all vested or accumulated vacation leave is not expected to be liquidated with expendable available financial resources, it is reported in the general long-term debt account group.

**Interfund Transactions** - Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.
NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Concl'd)

Property Tax Revenues - Property tax revenues are recognized as revenues in the fiscal year they are levied and collected or if they are collected within 60 days subsequent to fiscal year-end. Property taxes not collected within 60 days subsequent to fiscal year-end or collected in advance of the fiscal year for which they are levied, are reported as deferred revenues.

The County levies real property taxes on or before the third Monday in August that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May.

The County also levies various personal property taxes during the year that are due the second Monday of the month following receipt of the tax notice and become delinquent 30 days thereafter.

Total Columns - Total columns on the combined financial statements are captioned "Memorandum Only" to indicate they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations or cash flows in conformity with U.S. generally accepted accounting principles. Neither are such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Expenditures exceeded the adopted budget in the following funds:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Amount of Overexpenditure</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Fund:</td>
<td></td>
</tr>
<tr>
<td>Magistrate Court</td>
<td>$ 6,819</td>

<td>44,394</td>
</tr>
<tr>
<td>Debt Service Funds:</td>
<td></td>
</tr>
<tr>
<td>HURF Debt Service</td>
<td>861</td>
</tr>
</tbody>
</table>

Cash or receivables were available to meet all of the overexpenditures listed above.

NOTE 3 - CASH AND INVESTMENTS

Cash and investments are pooled and invested. Interest earned from investments purchased with such pooled monies is allocated to each of the funds based on the average monthly cash balances of the Town. State statutes authorize the Town to invest in obligations of the U.S. Treasury and U.S. agencies, certificates of deposit in eligible depositories, repurchase agreements, obligations of the State of Arizona or any of its counties or incorporated cities, towns or duly organized school districts, improvement districts in this state and the State Treasurer’s Local Government Investment Pool.

Cash and investments at June 30, 2002 consist of the following:

<table>
<thead>
<tr>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cash on hand</td>
<td>$1,360</td>

</tr>
</tbody>
</table>

The Town’s deposits as of June 30, 2002 were entirely insured or collateralized with securities held by the Town’s custodial bank in the Town’s name.

The Town’s investments at June 30, 2002, consisted of the following. The State Board of Deposit provides oversight for the State Treasurer’s pools, and the Local Government Investment Pool Advisory Committee provides consultation and advice to the Treasurer. The fair value of a participant’s position in the pool approximates the value of that participant’s pool shares. The shares are not identified with specific investments and are not subject to custodial credit risk. The guaranteed insurance contract is also not subject to custodial credit risk. All other investments were insured or registered in the Town’s name or were held by the Town or its agent in the Town’s name.

NOTE 6 - OBLIGATIONS UNDER LEASES

Operating Lease - The Town leases office space under the provisions of a long-term lease agreement classified as an operating lease. Rental expenditures under the terms of the operating lease totaled $371,280 for the year ended June 30, 2002. The operating lease is cancelable with a 90-day notice.
NOTE 7 - BONDS PAYABLE

General Obligation Bonds

Bonds payable at June 30, 2002 consisted of the outstanding bonds presented below. Bonds maturing prior to July 1, 2002 are noncallable. Bonds maturing thereafter are subject to call. Interest is payable semiannually. Principal and interest requirements at June 30, 2002 were as follows.

<table>

Improvement Districts are created only by petition of the Town Council by property owners within the District areas. The Cottonwoods Improvement District was created so the Town could fund the improvements. Each of the 54 homeowners within the District has been assessed taxes by the Town for repayment of the bond. In case of default, the Town has the responsibility to cover delinquencies of special assessment bonds with other sources until foreclosure proceeds are received.
NOTE 9 - COMMUNITY FACILITIES DISTRICT BONDS PAYABLE

Community Facilities District bonds payable at June 30, 2002 consisted of the outstanding bonds presented below. The bonds are generally callable with interest payable semiannually. Of the total amount originally authorized, $2,095,000 remains unissued. Principal and interest requirements at June 30, 2002 were as follows.

Community Facilities District bond debt service requirements to maturity, including $3,763,100 of interest are as follows:

Year ending June 30:

2003                              $453,350
2004                              455,475
2005                              456,828
2006                              457,403
2007                              452,170
Thereafter                        6,392,874

$8,668,100

Community facilities districts (CFDs) are created only by petition to the Town Council by property owners within the District areas. As board of directors for the District, the Town Council has adopted a formal policy that CFD debt will be permitted only when the ratio of full cash value of the District property (prior to improvements being installed), when compared to proposed District debt, is a minimum of 3 to 1 prior to issuance of debt and 5 to 1 or higher after construction of improvements. These ratios are verified by an appraisal paid for by the District and administered by the Town. In addition, cumulative debt of all CFDs cannot exceed 5 percent of the Town’s secondary assessed valuation.
NOTE 9 - COMMUNITY FACILITIES DISTRICT BONDS PAYABLE (Concl'd)

The developer contributed $4,435,000 to the CFD to guarantee the repayment of the Series 1996 A bonds. The District then established a guaranteed investment contract with a trustee as collateral for the Series 1996 A bonds, which provides for an A rating for the bonds from Standard & Poor's Corporation. When property valuation in the Eagle Mountain development is sufficient to establish an A rating on the bonds without the guaranteed contract, the developer may apply to the CFD Board to have the $4,435,000 returned. Until then, all interest earned on the guaranteed investment contract is deposited into the Debt Service Fund of the CFD. Because it is the intention of the CFD to return this money to the developer as long as property taxes are sufficient to repay the bonds, it has been recorded as due to developer.

NOTE 10 - COMPENSATED ABSENCES

The liability for vested compensated absences is recorded in the General Long-Term Debt Account Group. A summary of changes in liabilities for compensated absences for the year ended June 30, 2002, follows.

Balance at July 1, 2001  $ 253,863

Current year increase in liabilities for compensated absences  21,763

Balance at June 30, 2002  $ 275,626

NOTE 11 - INTERFUND RECEIVABLES AND PAYABLES

As of June 30, 2002, interfund receivables and payables that resulted from various interfund transactions were as follows:

NOTE 12 - BUDGETARY BASIS OF ACCOUNTING

The adopted budget of the Town was prepared on a basis consistent with U.S. generally accepted accounting principles, with two exceptions. During the year, the Town assumed operations of the Fountain Hills Fire District which was not budgeted, and a budget for the Development Fees Capital Projects Fund was not prepared. The following summary is useful to reconcile the Combined Statement of Revenues, Expenditures and Changes in Fund Balances to the Combined Statement of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual:

NOTE 13 - CONTINGENT LIABILITIES

Accumulated Sick Leave - Sick leave benefits provide for ordinary sick pay and are cumulative but do not vest with employees and, therefore, are not accrued. Unvested accumulated sick leave of Town employees at June 30, 2002, totaled $443,608.

Lawsuits - During fiscal year 2001-2002 the Town was served with three lawsuits regarding the Town Council action to assume fire and emergency medical services to the community. The lawsuits were filed on behalf of former Fire District firefighters who were not offered positions with the Town as well as one citizen who filed on behalf of the voters right to decide fire services. The citizen lawsuit and one firefighter lawsuit have subsequently been settled for immaterial amounts; the final lawsuit on behalf of the firefighters represents a claim for $10 million for breach of contract and interference with contractual relations. The suit is presently scheduled to go to court in February, 2003. The Town expects to prevail in this lawsuit but would be covered by the insurance provider if the claim is determined to be valid.

NOTE 14 - RISK MANAGEMENT

The Town of Fountain Hills, Arizona, is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters. The Town's insurance protection is provided by the Arizona Municipal Risk Retention Pool, of which the Town is a participating member. The limit for basic coverage is for $7,000,000 per occurrence on a claims made basis. Excess coverage is for an additional $8,000,000 per occurrence on a follow form, claims made basis. No significant reduction in insurance coverage occurred during the year and no settlements exceeded insurance coverage during any of the past three fiscal years.

The Arizona Municipal Risk Retention Pool is structured such that member premiums are based on an actuarial review that will provide adequate reserves to allow the pool to meet its expected financial obligations. The pool has the authority to assess its members additional premiums should reserves and annual premiums be insufficient to meet the pool's obligations.

The Town is also insured by Arizona Municipal Risk Retention Pool for potential worker related accidents.

NOTE 15 - DEFINED CONTRIBUTION PENSION PLAN

All non-peace officers and full-time employees of the Town participate in a defined contribution pension plan administered by the ICMA Retirement Corporation as a 401(a) plan. The payroll for Town employees covered by this plan for the year ended June 30, 2002 was $3,142,753. The Town's total payroll was $4,156,753.
NOTE 15 - DEFINED CONTRIBUTION PENSION PLAN (Concl’d)

A defined contribution pension plan provides benefits in return for services rendered, provides an individual account for each participant, and specifies how contributions to the individual's account are to be determined instead of specifying the amount of benefit the individual is to receive. Under a defined contribution pension plan, the benefits a participant will receive depend solely on the amount contributed to the participant's account, the returns earned on investment of those contributions, and forfeitures of other participant's benefits that may be allocated to such participant's account. All non-peace officer full-time Town employees must participate in the pension plan from the date they are hired. Contributions made by an employee vest immediately and contributions made by the Town vest after three years of service.

An employee that leaves the employment of the Town is entitled to his or her contributions and the vested portion of the Town's contributions, plus interest earned. Each employee must contribute 11% of his or her gross earnings. The Town must contribute 11% of covered earnings. During fiscal year 2001-02, the Town's required and actual contributions amounted to $345,703. The employees' contributions totaled $345,703.

No pension provision changes occurred during the year that affected the required contributions to be made by the Town or its employees.

The ICMA Retirement Corporation held no securities of the Town or other related parties during the fiscal year 2001-02 or as of the close of the fiscal year.

NOTE 16 - RETIREMENT AND PENSION PLANS

Public Safety Personnel Retirement System (PSPRS)

Plan Description - The Town of Fountain Hills contributes to the Public Safety Personnel Retirement System (PSPRS), an agent multiple-employer, public employee retirement system that acts as a common investment and administrative agent to provide retirement and death and disability benefits for public safety personnel who are regularly assigned hazardous duty in the employ of the State of Arizona or a political subdivision thereof. All benefit provisions and other requirements are established by State statute. The Public Safety Personnel Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for PSPRS. That report may be obtained by writing to Public Safety Personnel, 1020 E. Missouri Ave., Phoenix, AZ 85014 or by calling (602) 255-5575.
NOTE 16 - RETIREMENT AND PENSION PLANS (Concl 'd)

Funding Policy - Covered employees are required to contribute 7.65 percent of their annual salary to the PSPRS. The Town of Fountain Hills is required to contribute the remaining amounts necessary to fund the PSPRS, as determined by the actuarial basis specified by statute. The current rate is 10.71% of annual covered payroll.

Annual Pension Cost - During the year ended June 30, 2002, the Town of Fountain Hill's annual pension cost of $61,102 for police was equal to the Town of Fountain Hill's required and actual contributions.

The required contribution was determined as part of the June 30, 2001 actuarial valuation using an entry age actuarial funding method. Significant actuarial assumptions used in determining the entry age actuarial accrued liability include (a) a rate of return on the investment of present and future assets of 9.0% per year compounded annually, (b) projected salary increases of 6.5% per year compounded annually, and (c) additional projected salary increases of 0.0% to 3.0% per year attributable to seniority/merit.

The actuarial value of the Town of Fountain Hill's assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a four-year period. The Town of Fountain Hill's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at June 30, 2002, was 20 years.

The preceding methods comply with the financial reporting standards established by the Governmental Accounting Standards Board.

GENERAL FIXED ASSETS ACCOUNT GROUP

General fixed assets consist of land and improvements, buildings and improvements, equipment and vehicles. These assets represent a major investment of Town funds. Adequate control and accountability of general fixed assets are essential to the protective custody of Town property.

---

(1) Arizona uses two types of property values for taxing purposes. Primary values are used to calculate primary property taxes which are collected to fund the maintenance and operation of school districts, community college districts, counties, cities, and state government. Secondary values are used to pay off secondary property taxes which are collected for such things as debt service (bonds), budget overrides and special districts. DATE OF INCORPORATION

December 5, 1989

FORM OF GOVERNMENT

Council - Manager

NUMBER OF EMPLOYEES (No police and fire)

- Classified - Full time: 90
- Classified - Part time: 22
- Exempt: 19

AREA

18.27 square miles

TOWN OF FOUNTAIN HILLS FACILITIES AND SERVICES

Miles of Street
- Surfaced: 178.5
- Unsurfaced: 2

Population (estimated): 20,235

Housing Units: 11,601

Building Permits Issued: 897

Culture and Recreation
- Community Centers: 1
- Parks: 4
- Park acreage: 121
- Tennis Courts: 6
- Senior Center: 1

FACILITIES AND SERVICES NOT INCLUDED IN PRIMARY GOVERNMENT

Fire Protection:
- Number of stations: 2
- Number of fire personnel and officers: 26
- Number of calls answered: 2,670
- Number of inspections conducted: 3,177

Police Protection:
- Contracted
- Number of stations: 1
- Number of police personnel and officers: 23
- Number of patrol units: 9
- Number of law violations
  - Physical arrests: 503
  - Traffic/Parking violations: 3,186

Sewerage System:
- Special District
- Miles of sanitary sewers: 200
- Number of treatment plants: 1
- Number of service connections: 10,916
- Daily average treatment in gallons: 1.7mgd
- Maximum daily capacity of treatment plant in gallons: 2.6mgd

Water System:
- Private
- Miles of water mains: 178
- Number of service connections: 11,448
- Number of fire hydrants: 1,217
- Daily average consumption in gallons: 4.4mgd
- Maximum daily capacity of plant in gallons: 11,570,000

Education:
- Number of elementary schools: 3
- Number of secondary schools: 1
- Number of students - Primary: 1,658
- Number of Students - Secondary: 833
