NISEI SERGEANT CAPTURES NAZIS
WITH THE FIFTH ARMY
ITALY—First Japanese American artilleryman to capture an enemy during the Italian campaign was Sergeant Ray Haru, Yosilla, Nevada, radio operator for a headquarters battery in the Japanese American 442nd Regimental Combat Team, who recently turned in three German prisoners he took on the Fifth Army front in Italy.

IHARA INVESTIGATES
Haru was a member of a forward observation party attached to an Infantry company at the time. The party was halted by enemy small arms fire on a hill. Noticing unusual movement near a dugout close by the pinned-down troops, Haru crawled over to investigate. Armed with only a carbine, he returned with three prisoners.

CREEPS UP
"All I did was creep up to them, and they hol- lered, 'Kamerad!'" Haru said. "What else could a guy do but take them prisoners?" His regiment's enlisted personnel is composed entirely of Americans of Japanese de- scent.

PFC. NAKAMURA VS. MACHINE GUNS
WITH THE FIFTH ARMY
ITALY—Private First Class Bill Nakamura, Seattle, Washington, member of the Japanese American 442nd Regimental Combat Team, single-handedly neutralized four German heavy machine guns on the Fifth Army front in Italy recently.

Two platoons of Nakamura's team were pinned down by fire from the heavy machine guns near Catellina, Italy. Without awaiting orders, the Seattle soldier crawled across exposed terrain toward the enemy emplacements. His comrades discovered his absence and opened up with supporting rifle fire.

Then within 160 yards, he fired upon one machine gun nest with his carbine rifle. His accurate fire knocked it out and forced the other three gun crews to retreat in disorder.

SPORTSMANSHIP

Today we bring football to the attention of the Rivers residents, not that it isn't already the top spot as far as attention goes for many. We bring it to your attention because football, which is a manly type of mind and body builder, seems recently in Rivers to be degrading in such a fashion that the health anxiety centered on the turf, as it should be, is carried off the field and continued as personal grudges or feuds in individual relationships, as it should definitely not be.

We are sure that the coaches of these teams realize the important part they are playing in the life of this community, giving healthful and vigorous outlets to the energies of young men and recreation to thousands, including the Issel, who wish these games each week. It is for the community good they are giving their time voluntarily, outside of regular workhours, to coach a bunch of sometimes unruly young fellows.

We appreciate them and also the boys who play. What we should like to continue to see are good, clean games with plenty of rivalry but no malice.

THE YOUNG WILL FOLLOW

We hope players themselves realize that theirs are the big games here in this contest, that all the young grammar school children are looking up to them as examples to follow. Other spectators, parents, acquaintances, and fans, like to see athletes perform in hard fought but clean games.

During the contest it is good to see players showing aggressiveness and energy. Coaches too might get excited and sometimes may feel that decisions were called wrongly. They have a right to ask the referees for an explanation of the decision but they have no right to violently protest decisions made in good faith, and we feel that officials are trying to be fair. Quick and fearless decisions on close calls are difficult, but they must be made if games are to remain on the level of cleanly fought contests.

The players here are mature and sensible enough to realize that no one benefits if rivalries started on the turf are carried as ships on the shoulders in daily relationships, of pitting chums against chums, class mates against classmates, and sometimes wrecking friendships that might have been everlasting.

WHY DISUNITE?

We of a minority race, placed in a relocation con- trol, don't want a house divided. Without dividing Nisei against Nisei, we have enough worries combating a common foe—discrimination from some of the race baiters on the outside. Many of the young players now are almost out of school and will be taking family responsibilities in no time at all. They have a future to look at, parents and families to take care of. And if they are broad-minded enough to see these bigger things in relation to small gripes and personal grudges here, the latter will fade into its proper perspective—something small and mean at the most.

We don't plead; we don't request or command. All we want is to have players, coaches, and everybody concerned treat themselves and all Nisei alike against Nisei, chums against chums? Why jeopardize your future plans and the Nisei's position by doing something unworthy on or off the athletic field or anywhere else that might become a blot on your record or a mark to be remembered by the victims who will eventually want to get even?

Sportsmanship in words is easy in action, dif- ficult. We'd like to see the difficult accomplished.

**First Lady Greets Newlyweds**

As far as Mr. and Mrs. Sadou Bishiiki are concerned, there is no relocation office in the country could have given them a better reception upon arriving in Buffalo, N.Y.

As they got off the elevator on the eleventh floor of the Rand Building, they locked up and saw Mrs. Eleanor Roosevelt, the wife of the President of the United States, approaching them with outstretched hand.

Mrs. Roosevelt shook both their hands and said to them, "Hello. I'm so glad to see you." Then she entered the elevator and was gone.

The Bishiikis, who are newlyweds, had just arrived from the Rohwer Relocation Center. The reception so startled and pleased them that they said they were speechless and couldn't believe their eyes.

What they did know was that Mrs. Roosevelt had just been visiting a friend in an office next to the WRA. Earlier Mrs. Roosevelt had met Miss Rose Sokuta, also of Rohwer and now a WRA stenographer in the Buffalo office.

"From the warm and friendly way she greeted me," said Rose, "I knew she understood our problem and I felt good all over about it."

**Canal Residents Will Install Own Stoves**

The installation of stoves will be done by block residents, according to the Canal Block Managers' meeting last Monday. Block managers are to submit names of people qualified to receive and willing to install the stoves, arrangements will be made for those men to take time off from their regular work.

The block managers unanimously voiced their opinion that the money collected at the Community Chest Drive should be distributed according to the various needs of center life rather than following the pattern of outside communities and customs.

Opinions concerning money spent in non-center dollars, namely gifts on special occasions, was also discussed at this meeting.

**No Tuitions In Four States**

No non-resident tuitions are required for high school students in Utah, Michigan, Iowa, and Minnesota, states Maxine Hogan, student relocation advisor in Canal.

Army Weekly
'Yank' Describes Battle
The Battle of Bolvedore, in which were engaged the Japanese Americans of the 100th Infantry and the 442nd Combat Team, is described by Sgt. James P. O'Reilly, staff correspondent of the Yank magazine, a European edition of the Army weekly. The article, printed on the September 8 issue of Yank, states that the Fifth Army's crack Japanese American soldiers were too familiar with the pattern of German troops defending that Italian town.

The 442nd arrived in Italy recently but the 100th has been there a long time. The men of the 100th went in at Salerno and have since fought through almost every major action from the Volturno to Rome.

After Rome fell, the 100th was sent to a countrywide just-north of Bolvedore where they were joined with the 442nd. It was a happy day for both outfits for many of the 100th's younger brothers, aunts, and friends were in the 442nd, and they hadn't seen each other since shortly after Pearl Harbor, when the 100th left Hawaii for combat training in the U.S.

The seventy-seventh day after the fall of Rome the 100th and 442nd headed for Bolvedore where they had a mission, to infiltrate the German positions in the valley, the hill that Bolvedore was on to sweep itself, to encircle and capture the town, and cut off the main road out of Bolvedore, that runs north to Sannio and Florence.

Many of the Germans captured were surprised to see Japanese Americans and thought that Japan had surrendered and was fighting for the American army.

The Yellowjackets opened the second round of the Southwestern League with a 33-6 romp over the Canal High High Eleven yesterday afternoon on Canal's gridiron.

The winners had the pleasure of crossing the goal line twice in the first quarter, twice in the third and once in the fourth, while Canal scored their only touchdown late in the second quarter.

Quarterback Eddie Usihito opened up for the Yellowjackets with a wide end run from Canal's 20 yard line to score their first touchdown. Joe Araki failed to convert an attempted kick.

Masami Kawamura added a touchdown in the same quarter on a series of short plunges, and he added an extra point as he bucked through the line into pay dirt.

Canal ended the first half as they scored late in the second quarter when a Canal player snatched the ball from the hands of Teruo Kozaki from the Yellowjackets 60 yard line and ran the remaining yards to score. Their attempted conversion pass failed.

Kaz Inumi opened the second half as he intercepted a blocked pass a former Canal's 40 yard line and sprinted all the way for the winner's third score. Joe Araki failed to convert. In the third quarter, Masami Kawamura also added another touchdown on a series of limit breaks. From Kick Formation, Eddie Usihito passed to left end Butch Inouye for the extra point. Teruo Kozaki put the finishing touches of the game as he scored on an end sweep from Canal's 30 yard line. HENDRIX

DON'T BURN RUBBISH SAYS GROUND SUP'T.

Attention has been called by Ernest C. Hendrix, superintendent of grounds, that many people in the camp are still burning rubbish in the open areas adjacent to the blocks. This practice should cease, because of the unsightly appearance of the rubbish, and also the annoyance caused others by the smoke when burnt. Ash piles are unsightly, and the ashes blow into the huts and kitchens.

Rubbish trimmings should be neatly piled in the proper places within the block for the rubbish crew to pick up. They will haul it all, thereby keeping your block clean. Rubbish should never be buried within the block as some are doing. This can cause decay and disease, is a breeding place for insects, and is a hazard in that some one may step on the spot and hurt himself. Glass and cans should be separated and deposited in the proper place. Also garbage suitable for swine feeding should be carefully separated and placed in the garbage cans, as this takes the meat from your table.

Yours is the best kept of all the recreation camps. This is due to the wonderful cooperation given by the people to those whose responsibility is to keep the camp clean. Your rubbish crews earnestly solicit continued cooperation of this cooperation.

NISEI AMERICAN FEATS
RECORDED IN ITALY

Reports of Japanese American feats with the Fifth Army in Italy continue to come in.

Sergeant Togo S. Sugiyama, former Los Angeles, California, truck driver, dead in a single day near Pastine, Italy, recently killed three German snipers and five machine gunners, took one prisoner and was credited with knocking out or routing four machine guns nests.

Sugiyama's outfit, the Japanese American 442nd Regimental Combat Team, was fighting with the 34th "Red Bull" Infantry Division on the Fifth Army front at the time.

Private First Class Kiyoshi Muranaga, of Los Angeles, was credited with saving the lives of many of his buddies by neutralizing an 88-mm self propelled German field gun which was threatening his entire company.

As the Japanese American 442nd Regimental Combat Team was moving up a narrow, winding valley in the vicinity of Suvolto, northern Italy, it was challenged by strong enemy forces. The Germans were well dug in and prepared for the attack, had the additional advantage of initial surprise.

The sudden fire of a German 88 caused disruption of the Japanese American company's ranks.

Private Muranaga was first gunner of 60-mm squad. In the midst of heavy shrapnel, the Japanese American soldier continued to fire until the 88 was neutralized and the enemy forced to withdraw.

Son of Mrs. Kiyoko Muranaga, now of the Grand Junction Relocation Center, Anaheim, Colorado, Muranaga lived in Southern California.

Cubs Win For Fifth Straight

The Cubs took their fifth straight victory as they defeated the Canal. High eleven by a score of 56-0 on the Canal gridiron Saturday afternoon.

The Bobcats were able to score only in the second quarter. From their opponent's 40 yard line, Kenichi Zemurah brought the Cubs to Canal's two yard line on a series of deceptive off tackle plays. From there Gen Tashima booted the line to hit pay dirt for the winner's first score. Kenichi Zemurah placed a conversion kick for the extra point. In the same quarter Kenichi Zemurah intercepted a Canal pass from Canal's 46 yard line and outran his opponent for their second touchdown. He was again successful in placing a conversion kick through the uprights for an extra point.

On several occasions

BRONCOS OVERPOWER MUSTANG ELEVEN 31-0

The hard hitting Broncos paced by Muscles Ushiro and Akira Tanaka, amassed a score of 31 to score a victorious over the humiliated Mustangs last Sunday afternoon, with a large crowd witnessing the game.

Early in the game the Broncos "went to town" as Muscles Ushiro crossed into pay dirt in the first quarter and Sam Nakashima followed suit by powering his way to tally in the second quarter.

The Broncos came back in the second half to march up the field to the Mustangs 30 yard line. A play later Muscles Ushiro snugged a double reverse into his arms and slipped through off tackle to cross the goal line standing up. Sam Nakashima's try for the extra point was unsuccessful.

Following and closing quarter the Broncos sparked up considerably by scoring another touchdown on a sleeper play. Min Mayeda sat in a "fokora" on the south sideline until the ball went into play, then slipped out of bounds a pass from Muscles Ushiro in the Mustangs' end zone.

Sam Nakashima again failed to convert with Muscles Ushiro holding.

Following the kickoff the Mustangs threatened to score as Akira Hirata caught a pass from Kiyo Akai who was in punt formation, to carry the ball from his own 40 to the Broncos' 5 yard line. From there, the Mustangs failed to push it across in 4 downs and so their opponent took over.

Following this threat the Broncos yardag on punt formation went to work with Muscles Ushiro and Akira Tanaka alternately taking the pigskin. They pushed it up to the Mustangs' 2 yard line from where Masani Fukai on a quarterback sneak plunged through center to hit pay dirt, for the last time. Leading center on a kick formation was picked up by Muscles Ushiro, who swept out left to add the one and only extra conversion to end the Broncos' perfect day 31-0.

Kiyos Akai's deadly pass ing and Akira Hirata's pass snatching kept the Broncos' backfield on edge throughout the game.

CORPORAL CITED FOR GALLANTRY

WITH THE FIFTH ARMY, ITALY—For gallantry in action on the Fifth Army front in Italy, a Los Angeles, Calif., infantryman of the Japanese American 442nd Regimental Combat Team, Corporal Yoshiharu M. Aoyama, recently was awarded the Silver Star posthumously.

Though both his legs had been blown off when he went to the rescue of a wounded companion, Yoshiharu refused medical attention and insisted that doctors look after the other injured soldiers first. He died a day after he was wounded.

His citation reads, in part:

"Corporal Aoyama crawled through heavy mortar, artillery, and small arms fire to rescue an artillery forward observer who had been wounded by shrapnel. While rendering first aid to the wounded artilleryman, Corporal Aoyama suffered a direct hit from an enemy artillery shell, and both his legs were blown off below the knees. Corporal Aoyama attempted to render himself first aid and retain control of himself until reached by his platoon leader and a medical aid man.

"He was evacuated to an aid station under cover of darkness, and the aid men asked the more seriously wounded to speak up so that he might be treated first and evacuated to the rear. When asked how he was, Corporal Aoyama replied: "I'm all right. The others need help more than I do. Treat them first." He continually refused to accept aid untill the others had been treated. Not until the medical aid men started to treat him was the extent of his injuries discovered.

Corporal Aoyama died the next day.

"The extreme physical and moral courage of Corporal Aoyama, and his concern for his fellow comrades when himself mortally wounded reflect the highest traditions of the military service."

Armistice Day, 1944

Today we observe the twenty-sixth Armistice Day celebration with none of the gaiety and carefree optimism that characterized the end of the war to end all wars in 1918. Throughout this nation Armistice Day, 1944, will be observed with a solemn determination to see this second World War through to victory and a hope for an early and lasting peace thereafter.

Death of brothers, sons, husbands, and fathers will have a sobering effect in all American communities.
The beat of millions of soldiers marching hopefully homeward in 1918 is today replaced by the rumble of many feet trudging forward toward the mud and blood of the front lines stretching from the Alemannia to the South Sea, some never to return. For the price of war is blood spilled, lives lost, and millions saddened, and Rivers is paying its share.

More than 800 Rivers men and women have already gone to war, and at least 12 reported dead will never return. Twenty others have been injured, some seriously. And just Wednesday 35 more left Gill for active duty with several more yet to go on Monday.

Rivers is in the midst of war and is feeling the accompanying sacrifices.

Armistice Day, 1944, for Gillians is a solemn and sober one—one during which we must gird ourselves for further sacrifices and reassert the goals for which men are dying.

Nisei, as well as all other Americans, are giving their lives so that others might live, free from oppression and discrimination. We pray for an early peace, a safe return for all boys, and the restoration of a free country with equality for all minorities under a flag for which all races contributed.

ITALY NISEI TAKE HILL 140

LEGIONNAIRES VISIT RIVERS

The members of the Casa Grande Post of the American Legion were the guests of the Ex-Servicemen's Club at a meeting held Tuesday night, announced P.C. "Tom" Swanson, commander.

Final plans for the Armistice program were made at that time.

His action, followed by a barrage laid down by his mortar man, opened the way for the remainder of the 35th Division troops to drive the Germans from their hill-top position.

During this drive a German lieutenant and most of his 80 men were killed or captured.

Chef Trumpet Plans Dinner

The Butte cooking class students under Dr. Grace Lawson are planning the original Thanksgiving dinner for next Monday night, November 17, at 6:00 p.m.

Students registered in the class will learn to pluck turkey, dress it, stuff it, and even to set the table. Everything from cocktail to coffee will be taught in separate lessons, supplying the basic seven nutrition training.

This will be a Thanksgiving dinner that's traditional, yet scientific, stated Dr. Lawson.

That night the cooks and chefs who have taken an active part in cooking will be awarded chef's hats.

Canal's cooking class next Wednesday will have its lesson on "Good Things to Make with Baking Powder." Last Wednesday night it studied "Chicken in the Pot."

Canal Scouts Meet Wednesday

The Cub Training Class is to meet at 7:00 p.m. next Wednesday in the Canal Elementary Library. The actual practical demonstrations will begin at that time.

About six more leaders are urgently needed to accommodate the 50 boys who are expected to join the Cub Scouts. Anyone interested may attend the training course.

Dr. Lawson Invited To Talk At Conference

Dr. Grace Lawson, chief dietitian, has been invited to speak at a vocational conference of young men and women from all parts of Arizona to be held at the Arizona State College in Tempe, December 3 and 4.

The prospective future for young people after college will be discussed at the conference.

Last week Dr. Lawson spoke at a two day nutrition conference at the University of Arizona in Tucson.

RELOCATION CHIEF GIVES RESETTLEMENT POINTERS

Recent instructions from Rex Lee, chief of the Washington relocation division, instruct field relocation officers and project relocation divisions to concentrate upon the development of opportunities for evacuee businessmen who wish to re-establish themselves in private enterprises. It suggests that field relocation officers contact local civic organizations such as Lions and Kiwanis clubs to list their aid, and that investigations be made in local situations to determine where favorable opportunities are available and to assist in securing the cooperation of neighborhood merchants. The help of relocation committees will also be sought in assisting evacuees to prepare and present applications for loans from the Reconstruction Finance Corporation and private loan sources. In those communities it may be possible to set up a revolving loan fund to establish a business if there is enough interest in this plan on the part of evacuee businessmen.

Any center residents who are interested in re-establishing themselves in private businesses are invited to contact the project relocation office in Butte or Canal in order that their plans be developed and submitted in writing to outside offices for further action.

First Aid Men Help Wounded
WITH THE FIFTH ARMY, ITALY—For three hours, during heavy enemy bombardment, Private First Class Frank Z. Okita, of Seattle, Wash., aid man with the Japanese American 442nd Regimental Combat Team, recently ministered to the wounded and supervised their evacuation to safety.

Southwest of Cassellina, Italy, in the vicinity of Hill 154, with the Fifth Army front, Okita's heavy weapons company was dug in to withstand a heavy German bombardment of artillery and heavy mortars.

When a buddy was wounded, he left the safety of his slit trench and moved to the forward slope, where enemy fire was heaviest, to administer first aid. He then carried the injured man to his own slit trench, and for several minutes, lying prone on the outside of the trench, Okita tended the wounded comrade.

He returned to the forward slope and for three hours, during the bombardment, remained in the danger zone, caring for the wounded and supervising their removal to places of safety.

The late Pvt. Henry M. Kondo, who fell in France on October 19, had written to a friend in Pasadena, his old home town. What he had to say was short and to the point:

"I can assure you we won't let you down. We'll do everything in our power to meet your expectations even unto death. We're loyal Americans. You know it, don't we? We'll show those that don't believe in us that we're true Americans in every way." He has already shown it with his life, as have eleven other Rivers boys, some who wrote back in similar fashion, others who just fought and died silently.

The Japanese race is known for its patriotism and faithfulness. It is being proved beyond a doubt that the Nisei Americans have inherited some of that patriotic spirit.

They have shown that courage in Italy, and in the South Pacific. They are showing it now in France. Just last week the Associated Press reports that a "lost battalion" of the United States Seventh Army cut off by the Germans for a week in the St. Die area, was relieved by Japanese American troops of the 442nd Regiment. The "lost" battalion was of the 141st Regiment of the 36th Division. The Japanese Americans of the 442nd fought their way to the trapped men late on the afternoon of October 30. Said Pvt. Walter Yatay, Providence, R.I., "It really was ironical that we were so glad to see the Japanese, but boy, they are real Americans."

It is ironical too, that these same Nisei Americans and their parents were suspected, evacuated and confined. It would be the height of irony if those real Americans, after the war, were not given the right to live freely in the state of their preference.

The Nisei have not been able to, were not allowed to, prove their loyalty by words. They are doing so now overseas in the blunt and painful method that all men understand, and, we hope, remember.

CHICAGO  
NON-RESIDENT MUST PAY HIGH SCHOOL TUITION

A number of school boys and girls have relocated in the North Central area without their parents or legal guardians during the past year, according to a new release from the Chicago WRA Office. Many of the high school students in this group are working for their room and board and incidental expenses, and it is frequently possible to arrange very satisfactory work of this sort for high school students. School boards and states, however, have many regulations governing the residence of unattached minors and regarding the matter of tuition charges of the public schools for boys and girls not living with parents in the community.

In general, a great many cities in the United States do not charge tuition to unattached minors who are working their way through high school.

In the city of Chicago, however, applies its rules uniformly to all unattached minors. The following statement from the Chicago Board of Education's Business Department makes clear the situation as regards tuition payment for any young people planning to come to Chicago from relocation centers without parent or legal guardians.

Pupils who live outside of Chicago, and all pupils whose parents or guardians do not reside within the limits of the City of Chicago, who are staying in Chicago for the sole purpose of attending Chicago public schools, shall be considered non-resident pupils, and shall not be admitted to Chicago public schools except after payment of tuition fees for full terms in advance to the secretary. These fees shall be determined from time to time by the Board of Education.

The above rules are in no sense discriminatory and are applied equally to all such persons coming into the city.

**COACH MIYOSHI'S CUBS CROWNED LEAGUE CHAMPS**

Under a blanket of dust, wind and rain the steady, well-organized Cubs coached by Jun Miyoshi pounded their way to a close 13-7 victory over the hard bucking Broncos Sunday morning on the Butte CAS gridiron. This game marked the close of the season with the Cubs being crowned as unmo­lested Champions of the Northwestern League with a perfect record of winning all their games.

The Cubs scored their initial touchdown late in the first quarter as quarterback Tets Hasegawa charged through the Bron­co line, blocked and recovered tackle Yoshimi Shinto's punt on the 32 yard line and romped the remaining yards to score. The Cubs failed to convert.

In the second quarter the Broncos evened up the score as they made their touchdown in identically the same fashion as the Cubs touchdown. Yoshimi Shinto broke through the Cub line, blocked and recovered Mitsu Taniguchi's punt on the 34 yard line and sprinted the remaining yards to score. The Bron­cos also failed to convert.

The Cubs scored their deciding touchdown early in the last quarter when Ken Zenimura from the 26 yard line ran to his right to throw a pass but could not spot any receivers, reversed his field and finding a clean field sprinted over for the win­ner's second score. Ken Zenimura's conversion which was good for an extra point.

Kenso and Kenki Zeni­mura, Tets Hasegawa and Art Mikawa deserve much credit for this win. Scoring the touch­downs were Masani Fukai, "Mus­sles", Ushiro, Yoshimi Shinto, and "Peppy" Kawa­bara.

**Ramblers Lose 19-0 FROM YELLOWJACKETS**

The Ramblers met their second grid defeat as the Yellowjackets walked away with a surprising 19-0 vic­tory yesterday afternoon on the Butte gridiron. This clash was a postponed game from Sunday afternoon which was called off due to the muddy field.

The two teams battled the first half to a 3-0 tie, but the Yellowjackets came back in the second half to erase the pay line three times. Quarterback Edith Ushiro scored the first touchdown of the game in the third period as he hit pay dirt on a fake reverse from the two yard line. Right End Butch Ino­uye added an extra point as he placed a kick through the uprights.

In the following quarter, Masaki Kawamura added the second touchdown from the three yard line on a line plunge through the center. The Yellowjackets attempted conversion again.

Edith Ushiro scored again as he plunged over for the final touchdown of the game in the final quar­ter. The Yellowjackets again failed to convert. Though they did not make any touchdowns, small but mighty Teruo Hozaki and Joe Arai deserve much cre­dit for this important win.

DIES COMMITTEE MAY DISCONTINUE

The House Republicans decided last Wednesday not to seek continuance of the Dies committee by the congress, according to an AP release.

Their decision, and the known sympathy of Democratic leaders towards the committee headed by Martin Dies (Democrat, Texas) made it improbable the group would operate after next January 3, when its current tenure expires.

The question of continuance of the committee, Representative Thomas (Republican, New Jersey) said, "must rest with the majority party in the house."

TOOELE MEN'S STATUS CLEARED

For the benefit of men between the ages of 18 and 26, whose relocation plans have been delayed because of uncertainty regarding their draft status, a letter from Captain H.W. Kinney, personnel officer at the Tooele Ordnance Dept., clarifies the status of ammunition workers who are engaged in essential war industry with regard to their Selective Service boards.

Kinney states that Depot workers who have not been inducted into the Enlisted Reserve Corps will fall into four main categories. Those over 30 years and working as ammunition handlers are definitely deferrable. These men who have been physically rejected at the Armed Forces Induction Station upon examination, are definitely deferrable if employed as ammunition handlers regardless of their age. Those men between the ages 26 through 29 may be considered for occupational deferment. Men under 26 years of age who are physically qualified for military service are not deferrable.

Men under 26 years of age or men who have already been inducted into the Enlisted Reserve Corps will be accepted as workers at the Tooele Ordnance Depot until they are called into the Service. Men who are classified I-A should advise the Relocation Office at the time they accept appointment at Tooele so that the Depot may immediately advise their local Selective Service Board of their new occupational status.

"Men over 30 should have no difficulty being deferred while working as ammunition handlers at Tooele Ordnance Depot. Men 26 to 29 years may also be deferred while working at Tooele Ordnance Depot, as ammunition handlers," Captain Kinney concludes.

EDITORIAL

UNFAIR BUSINESS

The reported ejection of a Nisei war veteran from a barber shop in Parker, Ariz., last week is an indication of what to expect once in a while when some misguided American thinks this country is only for his particular race.

The question of whether the barber, one Andy Hale, shoved the crippled Nisei veteran out of his shop or whether he merely told the warrior soldier to get out is beside the point. The fact is that Mr. Hale discriminated against the American soldier, forcing him to get out and indicating he wanted "all Japs to keep out, you rat." One can't reason with people like Mr. Hale, who has no feeling of appreciation for men who risk their limbs and lives for other Americans. Andy Hale, in effect, kicked the uniform of the U.S. in the pants when he implied that the warrior was a "Jap, you rat."

The report on this offer is invited to contact the Canal or Butte Relocation Office.

Veteran Ejected At Parker Shop

The WRA reported Saturday that a crippled Nisei Army private, wearing many service ribbons and being ejected from a civilian barber shop at Parker, Ariz., according to an A.P. release from Phoenix.

Andy Hale, the barber, acknowledged he had ordered the soldier Thursday not to come in his shop but denied shoving or forcing the infantryman. The WRA said the veteran, walking with a crutch, had been shoved from the establishment.

Hale, father of three sons in the service, said on the front of his shop reads: "Japs keep out, you rat."

He said it made no difference to him whether the Japanese Americans were civilians or soldiers. "They look just alike to me," he explained.

Mrs. Pauline Brown, Phoenix reports officer, said the soldier was Pvt. Raymond Matsuda, 22, former resident of Hawaii, who was shot in the knee on the Italian front July 22.

Matsuda stated he went into the shop without noticing the sign and was met by Hale, who said, "Can't you see that sign?" He replied he hadn't noticed it but even so he was wearing a U.S. Army uniform. Hale then shoved him out the door.

Of Mice And .... Women

A little mouse stole the show for a moment Thursday afternoon at the Butte administration building annex by pulling its traditional stunt of scamping under secretaries’ legs and getting the traditional response—properly pitched shrieks and some fancy stepping on chairs and desk tops.

An entertaining news reporter, who happened to be on the scene only because he is always there, spoofed the story for his metropolitan paper.

The victims of the mouse were Shozo Yamagata and Yayo Kinouchi, who let out their shrieks; and Torry Teubokawa, Janice Aho, and Chiyi Tsuchiyama, who did some fast and fancy stepping to give the little visitor the right of way. The little visitor did not stay long enough to be interviewed for name and address.

Butte High Eagles Take 26-0 Win

The Butte High Eagles amassed a score of 26-0 against the Canal Hi "C" team to triumph twice over the latter with four touchdowns yesterday afternoon on the Canal GAS gridiron. The Canal eleven held the Butte gridders very nicely, threatening at times to score in the first quarter, but as the Eagles became familiar with the field the Canal gridders were swept off their feet.

First to score was Charlie Yamaguchi, who followed a stone wall protection around end to score in the last line during the second quarter. Right end Shig Kawata added an extra point with a conversion kick.

It was not until the third quarter when Yosh Yamaguchi hit off tackle to score the second touchdown. Kawata's attempted kick was no good. In the same frame John Kaka on an end run skirted over for the Eagles' third touchdown. Kawata's kick was good for an extra point.

In the final quarter Kawata managed Charlie Yamaguchi's pass from the 26 yard line to score the highly victorious Eagles' final touchdown. His attempted conversion kick glanced off the uprights ending the game at 26-0 in favor of the Butte High Eagles.

CUBS END SEASON WITH NEAR PERFECT RECORD

Brilliant playing and a compact defense of offense proved to be a benefit to the Cubs, coached by Jun Miyoshi, who took the undisputed championship of the Northwestern Pigskin League for 1944.

Accumulating a total score of 98 points the whole season, the Cubs held their opponents scoreless until the last game. The only team to have the privilege of scoring against them were the Bronco, who were their strongest rivals.

Leading the attacks in each game were the strategist Tetsu Hasegawa, who called the signals; Kenzo Zenimura, whose speed was essential; and Frank Tama-ka. Other members of the grid team were: Bob Katashino, George Odaka, San Morishita, Goro Yamada, Jim Takeda, Tosh Mishino, Ino Yukawa, Art Minka, Hisashi Inouye, Kenzo Zenimura, Toru Miyoshi, Herbert Sugiyama, Isamu Mayeda, Chico Misai, Scotty Mizzakami, Gen Tashima, Tetsu Furukawa, Miki Taniguchi, Eddie Makimoto is also on the roster, but due to an injury received in the first game of the season he was unable to participate during the rest of the season.

ALL STAR TEAM BEING SELECTED

An all opponent All Star grid team is now being selected by the coaches and managers of all the teams that played in the inter-camp Northwestern Pigskin League. The selections of the coaches and managers are requested to be handed in by the 20th of this month so that the All Stars may be determined without delay.

WRA Explains Functions Of Property Office

The following is the first of a series of articles from the San Francisco WRA office, condensing previous information and giving additional information to help each evacuee understand better how the evacuee property program operates.

The Evacuee Property Program Information, distributed to all tenant papers, states as follows:

VARIED SERVICE

The Evacuee Property Officer offers many and varied services to the evacuee and acts as intermediary or "middlemen" in all property problems.

While its functions necessarily are limited, there are many ways in which the Property Office can be of service.

For example, it can arrange for the sale of any property, either real or personal, which the evacuee may wish to sell. It can arrange for the leasing or renting of business, residential, or farm properties, assist in collection of obligations in the form of bills, mortgages, or other type of debts where such collections can be made without having to take legal action.

The Property Office can attempt the settlement of disputes arising from contracts or agreements between evacuees and residents of the evacuated area; it can investigate and report on the conditions of properties, personal effects, etc., and can, where court action is not involved, dispose of problems connected with the business or property interests of the evacuee.

However, no such action will be taken without the approval and consent of the evacuee and the evacuee should remember to make all requests for aid or property problems on WRA Form 153 or 153A.

In addition to the above, the Property Office can arrange for the picking up and storage of personal or commercial property of the evacuee.

FUNCTIONS LIMITED

As was stated before, functions of the office are limited. For example, the Property Office cannot assume responsibility for accepting or rejecting bids for property. No sale will be made through the office until a definite offer has been made to the evacuee and his acceptance of the offer has been received in writing by the Property Office. The evacuee, of course, is required personally to sign any legal documents required to complete the transaction.

SOCIAL SECURITY BOARD GIVES MEDICAL SERVICES

A recent survey compiled by the Washington relocation office indicates that relocators who have encountered unforeseen emergencies, shortly after their arrival in their new communities have been extended a helping hand by the Social Security Board and other public and private agencies. This range of medical and relief costs paid under the Social Security agreement has been several dollars for clinical care or a private doctor's fee to more than $1,000 in one case which included subsistence and hospitalization.

These examples indicate that practically every type of treatment is available in the relocation communities.

CHICAGO OFFERS YEAR-ROUND JOB

A wholesale vegetable and nut business in Chicago is offering inside permanent work to a group of ten or fifteen able-bodied older men.

Year-round employment is assured, since trucks ship in from the South during the winter months. Workers are employed for 60 hours a week with time and a half over 40 hours. The base rate of pay is $7.50 an hour.

Housing is available free of charge to the men in a brick building about four blocks from the warehouse. The building is equipped with lavatories, showers, cooking utensils, furniture, blankets, electric lights, and a stove.

This is an excellent opportunity for older men to relocate as a group on either indefinite or trial indefinite leave, the relocation office points out. Persons interested should contact the Butter or Canal relocation office for further details.

GRACE M. DONALD

DAVID BRUCE
GOV. WARREN:

CALIF. WILL ADHERE TO GOVERNMENT DECISION

Gov. Earl Warren said last Saturday that if the federal government determined military necessity no longer required the exclusion of Japanese from California, the state government would give "full recognition of their constitutional and statutory rights," according to an AP release.

STATE POWERLESS

To a written statement, he declared that the state government was powerless to prevent the return of the Japanese.

He said, "The evacuation of the Japanese from this area, and permission for their return, if ever, during the war have been and are matters wholly within the jurisdiction of the United States and in the exercise of war powers delegated to the army by the President of the United States."

AP DECIDES

"It is clear, therefore, that both the duration and extent of this exclusion are matters of military determination which supersede for security reasons in time of war, the constitutional rights of American citizens," he added.

COOKING CLASS

MAKES ITS UTLSENS

One hundred twenty-five persons enjoyed the Butte cooking class Thanksgiving dinner at noon Sunday night.

The outstanding thing about the preparation of the dinner, stated D.W. Gordon, was the fact that class members devised materials that could not be purchased. Two types of roasting racks were made from discarded wires and tin cans to hold the turkeys so that the oven heat could be distributed evenly. Small, thin rolling pins to make pie crust were devised from broken baseball bats. Pastry blenders were fashioned from old bicycle sprockets, and the chicken outer was hand fashioned.

The dinner was prepared by Dr. Grace Larson's cooking students.

Project Director Larry H. Bennett and other guests represented the Pilgrim Fathers.

extra point. In the same
quarter Shimasaki again
scored on an end sweep
from the Bobcats' 22 yard
line. The Ramblers failed
to convert. Left end Ken
Tashiro added the fourth
touchdown as he caught
Shimasaki's pass on the
six yard line, dodged a
 tackle and crossed the
pay line safely. Hamamot-
o's converted too again
kicked the extra point to
put the Ramblers ahead at
the half time by a score of
27-0.

Second half
In the third quarter,
right end Taka Hamamoto
caught a quarter back
"Squack" Hotta's pass on
the 23 yard line to add
another touchdown. Hamam-
otta failed to convert,
but in the final quarter
he managed to score
another touchdown as he
ran over on an off tackle
play. Akisuki passed to
Tashiro for the extra
point. "Squack" Hotta also
scored as he hit pay
dirt on an off tackle play
from the two yard line.
Hamamoto skirted end for
the 1 point. Shimasaki
snapped the final touchdown
on an end run from the 26
yard line. Hamamoto's at-
tempted conversion kick
failed.

Sparking the losers was
George Yoshihara who
played a brilliant all around
game with plenty of fight-
ing spirit.

Some of the refreshments to be sold are rolls, hot dogs, hot tea, and ice cream sundae.

All proceeds from this bazaar will go to projects hospital service projects, projects within the organization, and to send delegates to various conferences.

The four divisions of the YMCA which are participating in this project are Delta Phi's, Tri-Y, Jackettes, and the Junior Girl Reserves.

The co-chairman for this project are Mrs. Sam Matsuome and Mrs. K. Suigman.

FDR Sees Nisei Assimilation

While seeing no prospect of relaxing West Coast restrictions, President Roosevelt said last Wednesday that he thought Japanese citizens could be absorbed readily through all the rest of the country, according to an AP release.

He told a news conference that many Japanese have scattered throughout the nation and also said many lawyers believe citizens of Japanese ancestry cannot be kept locked in concentration camps.

There are 100,000 of them and 20 or 25 per cent have relocated in all parts of the country, he also added.

ARMY SAYS ALIENS MAY VOLUNTEER FOR SERVICE

The war department has opened the armed services to Japanese nationals in the United States who wish to volunteer for military service.

As such, volunteers are in active service, they are eligible for United States citizenship, stated Project Attorney James E. Terry.

Alien Japanese may apply for citizenship about 60 days after entry into active duty, and about a month after that they will be granted citizenship.

The new ruling released by selective service roads as follows:

"Subsequently to the decision by the war department to accept certain Japanese nationals who volunteer for military service, national headquarters of selective service announced today.\n
"Primary requirements for induction of Japanese aliens are that they must volunteer and must be found to be acceptable after investigation by the war department, and must pass the physical examination at an armed forces induction station. The determination of acceptability will be made on the basis of loyalty and other kindred factors.\n
WAR DEPT. DECISION "Decision to accept, under prescribed conditions, certain Japanese aliens now residing in this country who are found qualified for military service was made by the army department in order to make it possible for those who desire to do so. (continued on page 6)

WRA ANNOUNCES NISEI CASUALTIES

The WRA announced last Wednesday the total of 222 casualties among the Japanese American servicemen who had been reported to next of kin in the relocation centers, according to an AP release.

Of these, 69 were killed, 167 wounded and six are missing.

In recent heavy fighting on the western front, 20 Niijii were killed in action and 66 were wounded.

The WRA director said the actual total of battle losses among Japanese Americans is larger than the casualty notices would indicate, since about one third of the original evacuees have left the relocation camps and several thousand Japanese-descended citizens have never been in a center.

PROPERTY INFORMATION ON REAL ESTATE SALE

(This is the second of a series of five articles dealing with the services and limitations of the evacuee property program.)

What about sale of real estate? What information must the evacuee give the Property Office in order to get speedy action?

Full information concerning the property should always be provided by the evacuee. He must supply the exact geographical location as well as a legal description of the property involved, should state by whom the title is held and whether the owner is single or married. If the property is jointly owned by several persons, he must supply authorization for the sale from all of them.

SHOULD SUPPLY DATA

The evacuee should supply full information about the amount of annual taxes of various sorts levied against the property, the amount and type of mortgage and the terms of the mortgage; the balance due on any type of liens or other encumbrances involving the property in question and the status of the title and whether or not a title insurance policy is held by the owner. The evacuee should also state whether fire or other types of insurance are carried and give full particulars including the name of the company, the amount and the expiration date.

Most real estate sales are normally made through licensed real estate brokers, of course, and the brokers are entitled to a commission on sales. While the customary fee is 5 per cent, the amount of the commission may vary in certain communities or localities.

BIRTH CERTIFICATE

Because of the Alien Land Law, title companies require a birth certificate from the owner if he is of Japanese ancestry and so each evacuee must supply one with his request for sale of real estate.

If the evacuee has a birth certificate, he should file the original or a certified copy with the request for sale. An evacuee who has no birth certificate can (Continued on page 4)

REV. KUROSE

Gives Account Of Life Outside

The Rev. Gyuosay Kurose, presently in charge of the Chicago Buddhist Church and formerly of Heart Mountain, left yesterday after a short visit here during which he gave four talks in Canal and one in Butte in addition to meeting individual residents.

He has been helping Buddhist groups in Chicago and resettlers in that area and vicinity as Buddhist re-settlement counselor.

In his talks here he gave a true picture of the outside and helpful information for prospective resettlers. At Butte Thursday night he related how Nisei are doing in their relocated life on the outside, citing as an example Chicago where there are approximately 11,000 Japanese residing now.

A real Japanese community is starting and growing every day. The Reverend Kurose held out an optimism that another 10 to 20 thousand Japanese can be assimilated into Chicago.

On the whole Japanese are all accepted. Housing has been and is still a problem in all areas. However jobs are plentiful, ranging from janitorial work, to office employment.

He will visit the Poston Center for about a week.

write for one to the recorder of the county in which he was born. The usual fee charged by the county is $1.00. If the evicted wishes the property office to get a certificate for him, he should give the property office his date of birth, the name of the city and county in which he was born and the necessary fee.

VARIOUS CUSTOMS

Various communities have different customs with regard to title company changes for the search. In all cases the seller pays for the recording of the release of a lien. It is also customary for taxes, insurance and rentals to be prorated as of the date of sale of property.

If the property to be sold has been leased, a copy of the existing lease should be provided to the property office. If one is not available, the evicted should supply information about the lease, including the name of the tenant, period of the lease, rate of rental, whether there are any special conditions and whether there is a cancellation clause in the lease.

GIVE COMPLETE DESCRIPTION

Complete and accurate descriptions of personal property to be sold, such as refrigerators, heating machines, furniture, etc., must be given to the property office so that there will be no errors or misunderstandings. The evicted should supply the location and name of the custodian of each property as well as information about storage charges and how they are to be paid.

It is desirable that the evicted place a reasonable price on the articles to be sold, or he may request that bids be obtained. In either event no sale will be made without specific authorization of the property owner.

WRA REPORTS HEAVY CASUALTIES IN FRANCE

Heavy fighting on the Eastern front in Europe has accounted for 88 recent Japanese American casualties, including 20 killed in action and 68 wounded reported within the last 10 days to parents or next of kin living at relocation centers, the War Relocation Authority of the Department of the Interior said today.

Casualties in France, added to those in Italy and the South Pacific, bring the total to 99 males killed, 187 wounded and six missing, WRA reported in a compilation based on individual war department notices received at the centers.

Dillon S. Wyer, WRA director, said that the actual total of battle losses among Japanese Americans from the main-land is larger than the agency's compilation of 202 casualty notices. He explained that more than one-third of the evacuees have relocated from the centers to outside communities, and that several thousand persons of Japanese ancestry, who lived outside the West Coast restricted area prior to the evacuation order have never been in a center. WRA has no means of recording casualties among these families.

"Itali mothers and fathers at the centers, born in Japan," Mr. Wyer said, "have received word of sons killed in action, or wounded, with the same courage shown by parents elsewhere in the country who have made the same sacrifice. It is a common loss in the same Japanese cause."

PROGRAM RELEASED FOR ENTERPRISES CONFERENCE

The tentative program was released yesterday for the four day all-center business enterprises conference to be held here.

THE RIGHT TO RETURN

The U.S. Bill of Rights applies equally to Japanese Americans; the American people must see to it that those rights are defended.

This is the theme of an editorial in the November 15 issue of the San Jose (Calif.) Mercury Herald. Excerpts from the editorial follow:

"Certain American Japanese have been led to believe they will return shortly to their Santa Clara valley farms. This is indicated by their notification to local agencies to have their properties vandalized by December 1.

REASON, NOT EMOTION

"The situation brings us to a point where a decision must be made as to the reception and treatment local residents should accord them. It is a decision which must be made with reason and not emotion.

"We should remember in reaching our decision that only those American Japanese will return, who by their conduct and actions have given our authorities no reason to believe they are other than loyal citizens. They are the same type of American Japanese who have fought so loyally and brilliantly in the Italian and German campaigns, sacrificing life and health as their duty of American citizenship.

NISEI SINGLED OUT

"Also in reaching our decision we should realize that because of race and color those returning American Japanese have not been assimilated or accepted into our society and have made a special target for our hate of the Nippon nation which fired their parents. This has not been true of our citizens of German parentage, or even the naturalized German coming directly to their shores from the Reich.

"All these are facts to be weighed in reaching our decision.

"If the American Japanese are returned to us while the war continues it will require all of our self-control to prevent violence. We must remember that they as well as all other American citizens are entitled to the protection of the Bill of Rights.

WORTHY CITIZENS

"Any American Japanese who may be returned to Santa Clara valley will have by his every act while in internment proved himself entitled to the benefits of any doubt we might entertain in regard to his worthiness. Because of this we must in all sense of justice and moral right keep our hands free from emotion and see to it that they get an American break in an American democracy. Anything less makes them believers of the ideals which we are fighting all over the world to maintain.

Information On Sale
Of Automobiles, Trucks

This is the third of a series of five articles dealing with the services, limitations of the evacuation property program.

Requests to the property office by evacuees who wish to roll their autos or trucks must be accompanied by ownership and registration certificates signed by the owner of the vehicle. If the evacuee does not have the certificates, he should then make out an "Application for Duplicate Ownership Certificates." In such a case, he must be sure that the application for it is made out in the same name as the original.

An evacuee wishing to sell an auto or truck which has not been in use since evacuation (but which has been in storage) should provide an "Affidavit of Non-operation." The evacuee should write to the custodian of the truck or auto in storage and authorize him to allow the WRA to inspect and remove the car when it is sold. In cases where the vehicle is being used by another individual for its release should also be made by the evacuee.

The evacuee-seller should understand that certain storage usually require some servicing such as a battery recharge or a new battery. Therefore it is necessary that the evacuee provides funds for placing the car in usable condition so it can be demonstrated to prospective buyers. If a car is to be sold "as is" without any repair work, a top price cannot be obtained. The evacuee should understand that intermediaries bring higher prices but that there are GPA prices (continued to page 4)

The evacuees should provide the Property Office with information as to storage charges, if any, and if they or any other charges exist, they must be paid before the car is put up for sale.

The evacuee must remember that the WRA is not able to obtain or provide drivers to move evacuee-owned vehicles from the military area. It is the responsibility of the evacuee to hire the driver and arrange for his pay.

Under OPA regulations, ration boards are authorized to provide special rations of gasoline for the removal of automobiles from one part of the country to another when a legal change of residence occurs. Only the owner of the authorized driver is entitled to the supplemental gasoline. The driver should also be authorized in writing to obtain the car from its place of storage and to sign the necessary papers to obtain gasoline rations.

The Office of Defense Transportation will not authorize gasoline rations for a trip of more than two hundred miles for trucks or pick-up trucks and the evacuee usually has to arrange to have his truck signed to him by rail if the distance is over the 200 mile limit.
