This is Independence Day— the birthday of the United States of America. Today, we celebrate the action of 13 small colonies which announced to the world that henceforth they would not permit any nation to dominate them— they were standing together for the common good of all. No king, no representative of any foreign government could say longer interfere in their affairs.

One hundred and sixty-eight years have passed. Our nation has fought five major wars to defend its belief and maintain that independence. One of these was a war which divided the Union, brother fighting against brother, father against son. But the will of the majority ruled and today the United States presents a solid front with the old breach long forgotten.

It seems to me that today is a particularly fitting time for us in Poston to consider the history of the nation which is our home. Thousands have died to keep it a place where we can call our souls our own. Mistakes have been made— and rectified. Even with the restrictions war imposes, we now enjoy more freedom than people living in any other place in the world.

It is the privilege, the duty of every person living under the Stars and Stripes to do his utmost to be worthy of the sacrifices made by those who have gone before— and of the young men who are fighting on battlefields all over the world today. Almost 100 already have left Poston to uphold the ideals which they know are America's. Five hundred and fifty-three other nisei who are upholding those same ideals have relatives in the center.

They're coming home some day in the not too distant future. What can we tell them about OUR activities when they return?

Minor Disturbance in Twin Falls Causes Return of Workers

Five youthful hoodlums caused a minor disturbance in Twin Falls, Idaho, on June 22 and again on the 26, causing two seasonal workers to return to the project, according to a wire received from the Salt Lake City WRA office.

All of the assailants were arrested to be apprehended through the excellent support of the chief of police and other civic officials of Twin Falls. Four of the hoodlums who are under age are in custody of the juvenile court. The fifth, who is over 16 years of age was fined $25.

A large number of Poston youths are being employed in the area at the present.

EDITORIAL:

THE VOICE OF A NISEI

Much has been written in recent weeks about the Nisei soldiers. Their bravery in action, the awards given them, their excellent behavior in every way has won admiring comment. We add our plaudits.

However we ran across a V-Mail letter received this week by a Poston Nisei from a former Poston boy now serving in Italy. His letter brings home very forcibly what many of our Nisei soldiers must be thinking when they read the news—From home.

It speaks for itself. Read it and think for yourself.

Someday In Italy
May 31, 1944

Dear Mr——:

Well, you can make me out an applicant for the Liars Club, but I didn’t get seasick coming over.

About the pre-induction exams for the fellows in camp, the guys ought to get shot for refusing to show up. I wonder what makes the guys feel like that. Evacuation, limited choice of service in the army? If it’s the evacuation and what they lost, they ought to think about the poor people out here and other countries that lost everything. They’re getting three squares a day, decent housing, decent showers, and all the time to loaf.

Another thing that burns me up is that in the Pacific Citizen I was reading about some people sending petitions to the President crying about their rights and limited choice in the service. I guess this letter doesn’t seem like myself, but that’s how I feel. Will write a more pleasant letter next time.

Sincerely,

P. B. B.

Four decisions of which three were suggested by Camp III, were reached by the Manpower Commission at its last meeting. These will be transmitted to the project director, Dr. John Powell, chairman of the Manpower Commission, disclosed.

The three from Camp III were:

First: That the project administration in partnership with the residents be given more freedom in work.

Second: That men between the ages of 30-35 who can not relocate but who are essential project workers be changed to permit increased pay where extra work is needed or given.

NERO...the fire bug seems to have gotten quite popular with the residents after the big fire in 202 last Thursday morning. Now that one half side of that block is destroyed, Nero might creep up on the other side...let's hope he doesn't though, because we've had enough scares. Pity those that live in 202 or 203.

If you...hear or have heard any rumors about a soldier being killed by civilians around Parli or Danger Calif., don't you believe it. That rumor was designed to create ill feeling and without any basis of fact whatever. The authorities around there in California have not heard or have any knowledge of the slaying, and harmful rumors such as this should be stopped.

They're all back from work in Idaho. Yes, sire; Kinke, Oger, Pete, Kawa, Rio, Choppy, Jim, and that gang who make the block a lively one. We certainly missed them during the short time they were away. Even though this is Boston, feels good to be back again, doesn't it, boys?

BARBELLING...seems to be the fad with the boys. Every morning before, going to the 80 acre ranch, they can be seen huffing and puffing away either with the weights or on the near-by bars. Golly, don't they get enough exercise working on the ranch?

We apologize...to the workers across the hall for that crack about their not working. It was meant as a joke and not to be taken personally.

Field Officers and Organized Groups Aid Evacuees to Resettle Outside

WASHINGTON, D. C. — Restoration of evacuees to normal living outside relocation centers is now on a well-established basis and moving forward at a steady pace, Maj. Gen. Charles M. Homestead, Western Defense Commander, said this week.

"Since its modest beginning approximately two years ago the program of evacuee resettlement has developed to its present stage where a network of 38 WPA field offices and many organized groups and individuals are actively helping evacuees to relocate and become satisfactorily adjusted," he stated.

"No longer need an evacuee resident of a center wonder how he will be accepted and how he will make his living an outside city or town."

"The experimental stage or relocation is over. The policy, regulations and procedures are well established to enable evacuees to leave relocation centers and resettle in communities or their choice where they can lead normal lives in every sense of the word."

Briefly  

BY "EMMA"

AFTER THE FIFTH fire in 202 years, Neko has gained quite a reputation. The source of the flames still remains a mystery. With the firemen on the alert, the fire was soon spotted and extinguished before any damage was done. Publicity is what Neko seems to be looking for, and he's getting plenty of it, all right, without credit.

"GUNIA DIN"

...starring Cary Grant, Victor McLaglen, and Sabu will be shown as a special movie next Monday night at the Cottonwood Bowl.

Regular movie on Wednesday will be "Let's Face It," co-starring Betty Hutton and Bob Hope.

THIS YEAR'S watermelon crop will be distributed directly to the kitchens instead of being delivered to the warehouse first. In this way, the melons will be fresher and because of less handling, there will be less loss through bruising or otherwise. Quite a bit of our watermelon crop was lost through spoilage caused by too much handling.

ALL MOTHERS... who are in need of baby food, may obtain it at the Public Health and Sanitation Department.

ORNISH TO... the poultry farm for the chickens we ate on the 4th of July. Six hundred forty-two chickens were delivered to the kitchens that day, and we're sure everyone enjoyed it.

THE ALL-QUIEL... Chronicle staff wishes Takeshi Kyohara of 227 and George Kojima of 226 the best of luck. The two boys were called for active duty and are leaving camp today.

BUDDHIST CHURCH TO PUBLISH SPECIAL EDITION OF BULLETIN

In commemorating the second anniversary of the Poston II Buddhist Church, a special edition of the YBA Bulletin will be published. It is to appear on July 18, and will consist of approximately 20 pages, including the Japanese section.

Special articles from Min Hamada, Fred Nitta, Yoshio Shibata, and Chikera Iwamoto, who are organizers of the church, will be printed as well as contributions from those in Poston.

English literary contributions should be submitted to the church office not later than July 10. Poems will be accepted as well as articles. Stories should have a maximum of 200 words and the subject may be a general one, such as camp life, war, etc. Articles in Japanese will not be accepted as the Japanese section is already taken care of.

Nakamura Fukuda, who is in charge of this edition, stressed the point that informality is the keynote and policy of this project from the beginning. He added that since he would like a name for this special issue and Future Issues, suggestions for a permanent name should be sent in by July 12. Judges for the name will be the office staff.

Under Mr. Fukuda will be the competent staff of Amy Mashima, Sachiko Endo, and Coush Naka. Advisors are Reverends Yasuo Iwamaru and Bunsu Fujiyama. Reverend Fujimura will be in charge of the Japanese section. All YBA members may come out to assist in the publishing.

Bussei relocators are asked to send their respective addresses to the Buddhist Church office in order that they may receive this special edition and all future YBA Bulletins.

WOMEN PREFERRED FOR DOMESTIC INSTEAD OF MEN

At its recent meeting, the Unit Local Council heard the report of Kingo Okawara, vice-chairman, that the "city Council is to investigate the matter of the persons working in the Caucasus homes." He stated that there should be more women domestics instead of men because of the shortage of men here in camp. The plan is to place women in jobs that can be performed by them and to transfer men to more strenuous and essential jobs.

SHORT-TERMS MAY NOT BE CHANGED TO TRIAL LEAVES

Roosevelt Signs Bill to Withdraw Disloyal Nisei Citizenship

President Roosevelt signed legislation to withdraw the citizenship of Japanese born in this country whose loyalty to the enemy marks them as Japanese nationals, July 3, the Associated Press reported.

Mr. Francis Middle, attorney general, said the law was needed to deal with the problem of 300 to 1,000 Japanese at the Tule Lake relocation center who, he said, assert their desire to renounce their United States citizenship and to be recognized as Japanese nationals.

By making it possible for this group to abandon American citizenship, Middle told Congress, "they should thereupon be dealt with as alien enemies under the applicable statutes."

NO REPAIRS PERMITTED ON PRIVATE CARS

Effective immediately, no work will be done on any privately owned automobile equipment in any of the garages on the project, according to a memorandum issued by Project Director Duncan Mills.

Any privately owned cars or trucks found in any of the garages will be picked up by the Internal Security officer and impounded, the memo stated.

W.R.A. Leave Regulations Revised

Seasonal and short-term leave may not be converted to trial period leave according to revisions of the WRA leave regulations received by Project Director Duncan Mills.

"It is expected that residents of the relocation centers will make increasing use of trial period leave rather than short-term leave," the Washington office of the W.R.A. pointed out, since it gives the evacuees a four to six months' period to make a permanent adjustment in a new community, and permits them to return to the center if such an attempt is unsuccessful.

"Trial period indefinite leave, however, may be issued only at the center, and evacuees out on seasonal and short-term leave will not be granted permission to transfer to trial period indefinite leave."

Additional revisions of leave regulations at this time provide that: (1) each person 18 years of age or over, plus those who became 17 before May 17, 1944, must execute a separate trial period agreement in applying for trial period indefinite leave; (2) an evacuee who is converting to indefinite leave from short- term seasonal or trial period indefinite leave, who is otherwise eligible for a grant, and who has paid his own travel expense to the community in which he is resettled, may be reimbursed for his actual travel expense to the nearest federal tax collection center on his ticket; and (3) travel of evacuees on indefinite leave may now be authorized to points of relocation outside the continental limits of the United States.

BIG SEND-OFF GIVEN BOYS

A big send-off, the first of its kind here, was given to six local men, who left the project for active duty last Saturday night.

Project director Duncan Mills delivered a message following the raising of colors by the Boy Scouts and singing of the "Star Spangled Banner" by the audience.

Missaki Nomoto of Bk. 15 did not leave Saturday night with the group as his papers did not arrive. He will leave as soon as his transportation arrives.

The order of the eighth member, Frank H. Haragawa of Bk. 15, was revoked.

14 EVASIJERS PICKED UP

Fourteen Nisei, who refused induction on June 26, were taken from the project last Friday by FBI agents to Phoenix where they appeared before the U.S. Commissioner.

The majority of the evaders returned to the project after posting bond.
In a pitchers duel, Kasei's star hurler, K. Yamaguchi, shut out the All-Stars to cop the second and final game 5-0.

Both sides failed to score in the opening inning.

Next inning started with Nishimura's single and Kodani's walk. Then an odd thing happened, Des B-2 in place of Saruta getting a single to score a run, but was called out for miss batting and the runners returned to their respective bases.

Kasei's got their first hit in the 4th inning when Tanita and Okama both singled, putting them ahead. Then again in the third, Yamaguchi and Sato crossed the plate, when pitcher Morinami after fielding a ground ball, misfired the throw followed by Yamaguchi's single.

The All-Stars placed three on base in the fifth when Sasaki doubled and Oda got on an error, followed by Morinami's walk. The next three batters, Hara, Sugimoto and Furuta, all hit the ball, but the three runners that were on base, were all forced out at home to end that inning scoreless.

In the last of the ninth, Ikenaga, Nomura and ad Morinami, who had hurled a five hitter up to then, to hold the Kasei's to two more blows.

Kasei's put the game away, when Sato scored in the seventh and Yamamoto hit another in the eighth.

Hospital Veterans Feted at Banquet Last Week

Commemorating more than one and a half years of service in the hospital, certificates of appreciation were given 56 veteran workers at a banquet held at Mesa Hall 32 Friday night. Names of professional staff members, who have served from the beginning were also applauded by more than 300 guests. Although they are not connected with the hospital, credit also was given to the carpenter shop, boiler house, and painters.

Names of hospital workers now in Armed forces were presented in a moving speech by Dr. Masao Takeshi, optometrist.

The feature of the banquet was a presentation of certificates to 18 nurses aides, who have completed one year's training under Miss Elizabeth Vickers, Chief Nurse.

Local civic organizations also joined in the occasion. Dr. John Powell, who was chief speaker of the evening, expressed regret that the Health Committee of the Community Council was not participating in this expression of the gratitude of the community to the workers of the health service.

NEW CO-OP MANAGER

Managerial position at the Poston Co-op, left vacant by the resignation of George Itoh, June 15, is now filled by Fred Akashi of HI. 30.

POLICE DEPARTMENT IN UNIT I CHANGED

Now Known as “Watchman Crew”

The Unit I Police Department has been revised into a new unit called the Watchman’s Crew with a new chief, announces Charles A. Harper, Chief of Internal Security. The new force will be under the supervision of E. C. Gorman and will operate on the same site as the previous force had.

The new crew, which consists of 35 men, was organized by Mr. Harper and commenced work Monday. Their services will be available to the community at any time and the police station will remain open at all times so that the public may receive better protection.

At the time the new crew was organized there were only four men remaining on the police force—all others having resigned, being on a nine-month period. The abrupt change was brought about by the fact that there were only a small number of police officers remaining, reports Mr. Harper.

TRIPE TAKA-HOYO

May it be strong as we passed the Toy Loan Library this morning. There were so many cute toys on display, we hated to think that we were too old to enjoy them. But are we? Perhaps.

...tanned little boys and girls can be seen swimming like fishes in the swimming pool day after day. They make the older boys and girls hang their heads in shame.

COLORFUL UMBRELLAS... so nice to your children to buy one of those colorful umbrellas of stripes, plaids, checks, and plains, if not already possessed.

Walking in the heat without an umbrella is too hot and you know how you have to keep that school-girl complexion?

POLKA DOTS... seem to be the main attraction for the little kiddies when they near a pool of water. These grayish black things sprout here and there like tails after a couple of weeks... it's queer isn't it? However, they seem to be the only fish that live the longest in a jar of water at home.

BOYS... Did you hear about the dance that the C.A. is putting on next Sunday night?

Well, just in case there is one, you'd better get your "duds" picked out for a date. The place of the dance is not definitely set as yet but will be determined in the next issue. Take a tip from "EMMA", boys.

VIA A COLUMN

...by Fuku Yokoya will appear in next Saturday's issue. A swell treat will be in store for you.

Philly, City of Brotherly Love

SO THIS
...is Philly! Greetings. It's a wonderful place—this city out of our old history texts of the Liberty Bell, of crowded thoroughfares, of hospitable people, of unpredictable weather, or one-way streets, of indiscriminate pigeons, of ancient buildings, and modern shops.

OUT THE...but was uneventful, that memorable non-stop flight from Parker to Chicago. True, we did stop a hundred odd times at unimposing stations, but other than that, no. We were "fortunate," in having a merry crowd of some 77 passengers in a 74-seat coach, which caused us to rub elbows, literally and figuratively, with all types of persons, which was fun.

WE SHALL
...mark as indelible in our minds the very nice young couple from Camp 3 with their family of 5 plump children. Poor kids had nothing worth-while to do but sit all thru the three and a half day trip into Chicago. One of the "round little boys" who resembled a cute Disney rabbit even slept with a can of Spam balanced on his little fat tummy.
...the colossal conductors who circled around when the Kansas corn fields were waving our windows good-bye, to pinch our nose while we caught up on a little snooze.
...the cool haze that refreshed us at the little station when the Wells of the Camp 2 faculty brought us drinks.
IT WAS

TRANSACTIONS OF THE LOCAL POST OFFICE

For the month of June released by Postmaster, John Murimoto are as follows: Money Order, 39460.51; C.C.D., 1760; Stamps and Parcels, 744.67; and total, 39956.74.

when we boarded the "milk train" on our first stretch out to hear such jolly quips as, "I hear Jesse James robbed this train", and so forth. And believe us, that it was one of the loneliest persons that Jibed and tried to alliven the spirits of those who were feeling homesick already. Great guys, these relocators!

A NEW SHORTAGE

...we noticed more and more every day when our bus stopped at a New Mexico depot for refills. Two or three attractive Indian girls in soiled dungarees hoisted buckets of ice and came up to fill our water supply. The wolves whistled at them, but no comeback. In fact, all along the way we noticed girls were filling the shoes of men—in elevators, in taxis, as trainmen and conductors, bus and trolley drivers, lifeguards and others.

TIME
...hang out the three-zero mark for now. Until again, this will be signing off from Philly

KASEIS SMASH LOS PEPES 15-7: MOVE WITHIN ONE GAME OF FLAG

The Kaseis moved to within one game of the coveted "AA" crown by shattering the Los Pepes 15-7 in a "who gets the crown" game. Only the Blackhawks now remain between, the Kaseis and the crown.

Behind rise ball specialist, K. Yamaguchi, the Kaseis scored in every inning except the last to turn the game into a one sided affair. Up to the sixth Yamaguchi hurled a two hitter while his teammates were pounding K. Ike- naga for 16 safeties, including two circuit blows.

The Kaseis started it off in the first, when K. Yamaguchi walked, coming in on Sato's single, when the left fielder muffed the ball. With Sakamoto getting on, on an error, Ura rapped one of Ikezumi's fat ones for a homer into center field with two aboard. The next inning started with four consecutive hits by Yamamoto, Orida, Yamaguchi, and Sakamoto netting 3 more runs to run the scoring up to 7-0.

Tallying one run each in the next two innings and Sato's circuit blow in the sixth with Yamaguchi on, changed the score to 11-0. Los Pepes started their scoring when Edow singled, and Kiyata knocked the third homer of the day in the sixth. Edow and Kiyata again crossed the home plate in the following inning to mark up 4 tallies.

Kaseis came back in the next 3 frames by picking up 4 more tallies. hurler Yamaguchi allowed 3 hits and 3 runs in the last inning to end the decisive game 15-7.

K. Sato led the Kaseis sixteen hit attack with a four for six clip at the plate. By the narrow margin of a 11-10 victory the 10ettes olimached the Wo. Lo. pennant with 4 victories and no defeats.

The Luanans opened the scoring in the top of the first on a K. Kodama double followed by an error and 3 walks for 2 runs. The lead soon vanished however as the 10ettes brought their vaunted batting power into play to cross home plate 7 times in their half of the inning on a savior by N. Nakamura, a homer by Tsuji followed by 2 walks, 3 errors and a single.

Tallying 4 in the second frame on Nomoto's single, an error and a home run into right field by Otsuki the Luanans pulled within one run, 7-6.

The 10ettes soon opened the gap to 10-6 as Nakata and Tsuji singled, an error and another single by Kodama scored 3 runs.

BREEZE EDGE BLACKHAWKS 13-12

Behind Oda's and Sa- sakii's nine hitter, the Breeze's broke through the Blackhawks defense for a 13-12 victory.

The victors scored what proved to be the winning run in the 3rd when Murata drew a free pass and scored as Nakamura's single was fumbled in the out field for a two base error.

Coming back for single a tally on Nomoto's circuit drive along the right field foul line in the 4th, the Luanans peaked away at the lead and in the last frame had the tying marker on base but hurler Kodama rose to the occasion by retiring the side.

N. Kodama led the victors at bat by garnering 3 singles in 4 attempts while Otsuki's circuit blow and Nomoto's single and homer were the losers big blows.

Although scored upon so strongly, the Bucaneers nevertheless clamped down to hold Camp 4 scoreless for the remaining four innings. Also, the Bucaneers scored their one and only tally in the fifth.

316 CONTINUES WINNING STREAK

Getting 13 hits off the two 316 hurlers, the Hollywood Stars in a junior league game defeated the 316 Buggs, 13-4 last Wednesday evening.

In the first, 316 started off leading, but soon lost the lead when in the 2nd, the Stars started a little junt which included a home run by S. Kenzo which altogether netted five runs.

Only other score made by 316 was in the 5th, when A. Aritaka hit a homer into deep center.

The winning pitcher was T. Minamida with T. Hayami behind the plate.

JIMMY FUTADA: As soon as Jimmy Fujita, coach of the Poston III hardball "delegation" to Gila, we found out a few things about their venture.

First of all, he stated the story here on the whole was satisfactory excepting for the weather, and the trip to and from there was uneventful.

According to him, the appearance of the Osaka, with the white buildings and all the mass facilities and food topped Poston, but on the other hand, the weather there was hot and sultry. Poston can’t be beat...

On the human side of their trip, he stated that although they were really and truly enthusiastic about going, after their arrival, all thoughts turned back to Poston.

Well, all this sums up to show that, even though Poston is what it is..."It’s still "Home Sweet Home"...."

It’s none of our business, and we have been constantly asked to and we, too, feel irritated when some individual hinted an extra high chair and squeeze in between the crowd to interfere the view of those sitting behind. The small spaces are usually open so it will enable one to see without the blocking of heads and, if anyone has a common sense, they should know better than to go in those spaces, or else they should go earlier and get the deserved seat?

Jobs are plentiful for anyone who is interested in securing one, states Mr. Cushman.

At present he is filling a job sheet at Allis, available to anyone who is interested in relocating in that region.

UNIT 1 HIGH SCHOOL

NEAR COMPLETION

"We hope to be able to open high school at the new plant in September with the use of the recreation halls in the nearby blocks," states Dr. Arthur L. Harris, Superintendent of Education.

The new high school plant upon completion will consist of one home economics building; four general class room units; four shop rooms 40 by 60 feet; auditorium with approximately five small class rooms and with additional rooms for storage, musical instruments, lockers and stage properties; and a text book store room.

The high school will have only 27 class rooms in comparison to the 36 class rooms of the elementary school. It will have on the other hand four double size shop rooms and two small rooms in the auditorium wing. The library will be larger the auditorium office as large and the administration building 50 per cent larger.

Poston's last chance for state accreditation will be in October when the school visitors arrive, therefore, it is quite urgent that the high school plant be finished by then, even though it may require volunteers to help from the community.

Several thousand adobe bricks still have to be made before the plant can be completed.

P.O. HANDLES THOUSANDS OF MAIL

Early in May, 1943, when the Poston project first began to send out its mail out, Earlon Gardner, with three assistances worked away in the hot warehouse on the floor amidst the dust in order that the mail might go through. At that time the present Post Office building had not been completed and there was no equipment available with which to work. The men worked away doing the best they could with what little equipment that they did have. The equipment was very limited.

As time marched on, the Post Office building was completed and the crew moved into the new building, ready to give the residents better service, for speed was in demand as the amount of mail was increasing daily.

At the present time the Post Office is handling over 175 money orders, 100-150 C.O.D.'s, approximately 2500 letters, and 35 registries per day with a personnel of 27. Poston's mail is now as large as the other city post offices.

The local Post Office, a branch of Phoenix office, is probably the farthest branch office from any Post Office. Phoenix is approximately 150 miles from the center.

"EEMA"—Replacing the versatile yaku who pulled out for the City of Liberty bell, we extend our best wishes to the young and brilliant "all-girls" staff. We were asked by the "EMA" to splash a few lines for a change of scenery, but since we are property men or artist we can't change the scene too much. And besides what would make better scenery then the sweet and charming "all-girls brigade"!

A "JAR" has been placed in the Council office. The three employees have gallantly decided to drop in a penny in this pint jar whenever they wagged a provocative tongue. It's a great idea, but they say it's really a "joker" on the pocketbook.

THINGS...have changed, haven't they? The ex-Postonites returning to Poston from the eastern cities are calmly declaring that "cooling off" here in Poston: The pride of Poston has reached a new low and our blood pressure has hit a new high in hearing these derogatory comments that Poston without its superb heat anyway!!!

10 FIREFRNM NEEDED

Due to manpower shortage caused by relocation, ten more firemen are needed at the present time.

Harley Footman explained that middle-aged men are preferred since the younger ones tend to relocate or are getting drafted into the Army. He further stated that he would like his quota filled by paid firemen and the volunteer system would not know what to do in case of fire.

Firemen will be needed only if they come to the fire station. It was also declared that all firemen should be on call whether on duty or not and that the fire chief should have the firemen understand this fact.

HARRY YAGI REPLACES KEN SATO

Harry Yagi, who has been working for the Employment Office since the beginning of Poston, has replaced Ken Sato, who left recently for outside employment, as the Assistant Relocation Advisor, it was announced by Herbert S. Carter, Acting Relocation Advisor.

WATER SITUATION IS SERIOUS; CONSERVATION DEMANDED

Civil Affairs Training School needs 20 Nisei

The Civil Affairs Training School at Stanford University is in need of twenty Nisei men as conversationalists and drill-leaders of small groups of officers in the Japanese language.

The Civil Affairs Training School is preparing the Army for the responsibilities of military government in enemy territory in the period immediately following the cessation of hostilities. An important phase of this training is to develop considerable proficiency in speaking and understanding the spoken language.

Employment for this work will begin immediately and will last until July 1, 1945, and possibly until October 1, 1945. (cont. page 2, col.1)

Now Exceeding 3,000,000 Gallons Daily in Unit One

The use of water has reached the danger point. Entirely too much water has been used lately by residents. Unless drastic steps are taken to care for the acute shortage of water, Poston will face a great catastrophe.

In the last few days the amount of water used on the project has jumped to alarming proportions, according to a memorandum issued by Duncan Mills, project director. Much of this water has been wasted. In Unit I the amount of water used on July 10 was over three million gallons; this was the same as 200 gallons per person for 24 hours.

"For the protection of the residents we will have to take drastic steps to remedy this situation. I know that if the residents fully understand the danger they will cooperate in conserving water. Two million gallons is the maximum amount within the safe limits of our plant in Unit I. When the use exceeds this amount, in order to protect the community, it will be necessary to cut off the water supply," states Duncan Mills.

If the amount of water used lately continues the pumps will soon be useless in a short time. Equipment will be worn out, and the wells will be filled with sand, because it is more than can be pumped out of the wells.

In order to avoid cut-off of water, it will be necessary for the residents to cut their use of water by one-third.

C.A.T. IN NEED OF 20 NISEI NAMES FOR ADMINISTRATOR

It is not necessary that the Nisei have skill or previous experience as language teacher, although this would be valuable. They must be capable of conducting conversational practice in Japanese among a small group of officers of ages from 35-55. Wherever possible it is preferred that the Tokyo dialect be used.

The War Department has indicated that a salary of about $180 per month should be the standard remuneration for this service. Dormitory accommodations on the campuses at reasonable rates will be available for single men and single women. Family accommodations are not available.

Anyone accepted for this position will be allowed to return to California.

The highly classed 306-05 team bowed before the 10-ettes 11-6, Wednesday evening on Field 39. Although the 306-05 threatened their opponents in the fifth inning, they were unable to pull ahead. Iron-man chucker, T. Kodama, after throwing a losing game to Roko 4 the first time, held the opponents to 8 hits and 10 walks, while the losing southpaw chucker, H. Nagata, allowed 10 hits and K'd 3.

The 10-ettes scored 2 runs apiece in the first and third and when T. Kodama and Y. Naka-
mura hit for circuit blows with one aboard. The 306-05 sent across lone runs in the second and fourth when H. Kodama scored both runs to make the count 4-2. The 10-ettes once again brought their vaunted hitting power into play to tally 3 runs in the fifth frame on doubles by N. Nagata and H. Sugita. 306-05 came back with 3 counts in the 6th when shucker Kodama walked 3 batters and allowed a single raising the score to 7-5.

In the sixth stanza the 306-05 tallied a lone run on a walk and a double by C. Ozawa, while the 10-ettes went ahead scoring 4 runs on three consecutive singles by Suzi, Sugita and Kodama, ending the game 11-6.

Four decisions for submission to the Project Director were made by the manpower Commission at the last two meetings July 7 and 24, according to R.W. Neverland, Supply Officer. The first recommendation was that Community Enterprises workers be paid according to the job titles and pay rates used for other Project employees.

The second recommendation was for two additional cooks in the hospital and§10 pay rate for the cooks and one storekeeper.

The third was that all boys returned from Phoenix on bond because of selective service action be made eligible for employment on the Project.

The fourth was that salary rates for six dispatchers in the Motor Pool be raised by F.J. Casilly, Personnel Officer, with a view to rewriting the job analysis.

It was also reported at the meeting that the WRA Washington Office had turned down Project's request for providing work tents to tomato pickers.
KOBAYASHI-Ishino WED IN NATION'S CAPITAL

Washington, D.C., July 15—The most recent of nine weddings of evacuee couples which have taken place in the Nation's capital since early last year was celebrated here on June 15, when Mary Kobayashi, formerly of Santa Ana, Calif., and the Colorado River Relocation Center, became the bride of Iwa Camo, formerly of San Diego and Colorado River.

This is the first wedding between registrants to result from a romance that began in Washington. Eight other marriages, or united pairs of young Nisei who had become friends, were at the various centers and, in some instances, on the Pacific Coast prior to evacuation.

The Kobayashi-Ishino wedding was held in the garden of Mrs. Nainoa Davis' home, in which Mrs. Nainoa Nishihara has been living for some time. The bride is attending business college here and the bridegroom is employed by the Office of War Information.

In five of the local weddings, a Nisei soldier in the United States Army, or in training in this country, was the bridegroom. Yori Shimakawa, formerly of San Francisco and Central Utah Relocation Center, became the wife of Saburo Ishino, also from Central Utah and now in Italy with the 442nd Combat Team, while he was in Washington on furlough in May, 1943. More recently, another couple were married to the 442nd Combat Team. George Tashima, of the Colorado River, and Miss Sally Kawamoto, from Hasegawa, Hiroshi Sumida, a volunteer from Minidoka, whose wife is another Miss Mary Kobayashi, also from Minidoka.

Two bridegrooms in service are still in training in the United States. They are Paul Matsuguchi, now at Camp Savage, whose wife is the former Minako Kagemoto—both from Central Utah; and Robert Ota, a recent inductee formerly of San Francisco and Tulare Lake, who married Teikoku Kenda, of Sacramento and Tulare Lake.

COZZENS SPEAKS ON WRA PROGRAM

At a special staff meeting Wednesday, R. B. Cozzens, chairman of the Poston WRA program, commented on various aspects of the WRA program, according to Morris Surge, deputy project director.

He repeated what he has often been said by various officials, that the major job of the WRA and the project is relocation, indicating that out of 107,000 only 24,000 so far have relocated. He opened the biggest job of the WRA was ahead in the successful settlement of the remaining population.

He outlined some major problems in respect to evacuate property on the coast. He believes the evacuees should be encouraged to settle property affairs on the coast as soon as possible, and certainly before relocating. He said to save time and expense whenever possible WRA representatives in San Francisco should be given power of attorney when they are called in to investigate property matters.

He brought encouraging news of the reversible publicity being given to soldiers in San Francisco and requested the project to send all stories about soldiers to his office.

He believed that even when the West Coast area is open, evacuees should be encouraged to resettle in the Middle West and East.

Mr. Cozzens left Thursday morning, July 27, instead of that night, as he was scheduled to do.

Trudging back to school again will be those ranging from three to 18 years old, in other words, young and old alike. It will be better this year for all, because all the classes from grade one to twelve are to be held on the new adobe campus.

Emphasizing the existing manpower shortage in the AG., Jitezuo Fukuhara, Ag. Supervisor, reported that although students have relieved the shortage, he is still 32 men short of his quota of 188. In the fall when these boys will return to school, he expects 55 men to remain in the section to carry on the agricultural system. Close curtailment or field crops will be necessary if the quota remains unfilled. He further reported that the poultry section would expend from 3,400 pilots to 6,000 gullets in order to supply one egg daily for the students.

Resident are again reminded by Postmaster John Kumamoto, not to lose their money order receipts which are issued at the Unit II post office. This is due to the fact that too much confusion has been caused in tracing back to the original receipts when something has gone wrong with the money order.
